Unit description

This unit is designed to prepare students for the communication demands of entering into a research-intensive degree. It will provide students with advanced skills in written and oral communication, with a focus on learning to interpret and translate complex research findings into language that is accessible to both specialist as well as non-expert audiences, and across disciplines. As effective communication relies on responsible communication, this unit will also pay close attention to the ethical issues that can emerge from the research encounter, and through this deepen student appreciation of research integrity and responsibility.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

**ULO1:** Communicate research questions, key ideas, methods and findings, both orally and in writing, according to the academic requirements of the discipline.

**ULO2:** Design and produce a written research project proposal supported by appropriate

literature and following discipline conventions.

**ULO3:** Communicate to a non-specialist audience research questions, concepts and findings in the candidate's home discipline.

**ULO4:** Describe the risks associated with academic misconduct and determine appropriate responses.

## Assessment Tasks

### Coronavirus (COVID-19) Update

Assessment details are no longer provided here as a result of changes due to the Coronavirus (COVID-19) pandemic.

Students should consult [iLearn](#) for revised unit information.
