## Guide to navigating your unit

Each term is six weeks long which means we are up and running in week 1. Make sure you stay on top of the required work each week so that you do not fall behind. Here is a guide on how to navigate this unit.

### 0. Assessment

For all the details on the assessment in this unit, please go to Resources in the main navigation of your unit and click on Assessment Information.

Each week contains several elements

### 1. Lesson

(a) Video lectures

These brief lectures cover core concepts and fundamentals.

(b) Core readings and further resources

There are required readings for most lessons that provide more depth to each of the topics. The majority of these readings are available only through the Macquarie University Library, and we have linked most of them for easy access. You will require your MQID in order to login to the Library. There is usually at least required reading per topic. You can also choose to dive deeper into a topic of interest by exploring the optional further resources that are available.

Tip: Make sure to work through the Library resources in Onboarding to familiarise yourself with the techniques to use the Library most efficiently and productively.

### 2. Live Events

A live event will be run every week. While attendance is not mandatory, we strongly encourage students to attend as part of the enriching learning experience. All live events will be recorded for those unable to attend. Make sure you work through the week's materials before you attend. There may also be specific instructions for preparation. You can access the Live Events tab via the main unit navigation. The more you prepare for these events, the more you will get out of them.

Recordings will be available via the Resources tab in the main unit navigation. You will also have the opportunity to discuss content questions with your unit convenor via the Weekly Discussion Forum.

### 3. Weekly Discussion Forum

Use the Weekly Discussion Forum to engage with your peers and with the weekly topics. Share and grow with your peers in the unit. The unit convenor and the teaching assistant will monitor the forum(s) and engage where appropriate.

### 4. Practice

The Practice section provides plenty of opportunities to check your understanding of the topic. Practice makes permanent! The section is optional, and it is really up to you how much you want

to engage with the exercises in the Practice section.

(a) Recall and practice quizzes

Recall and practice quizzes can be attempted multiple times. The questions are based on the video lectures and readings. Feedback is embedded to direct you back to specific resources to help you improve. Short recall activities have been shown to improve long-term retention of core concepts and fundamentals. The results of these practice quizzes are not assessed and therefore not part of the final grade for the unit.

(b) Practice tasks and challenges

Some weeks contain practice tasks and challenges. These are a great opportunity for you to apply what you have learned that week in different contexts, reflect on key questions about the topic and familiarise yourself even further with the week's topic. Similar to the recall and practice quizzes, the practice tasks and challenges are not assessed and therefore not part of the final grade for the unit.

## **5. Habit Corners**

We are what we repeatedly do. What daily practices should you work towards to improve yourself personally and professionally? The habit corner brings research and practice together and is designed to help develop applied best practices.
