Unit description

The central aim of this unit is to establish the skills required for making reliable, practical analyses of texts and of the social variables which were instrumental in the construction of those texts. The course will build on the grammatical training established in earlier units, on the additional study of cohesion, as well as on the observations associated with the re-development of Pragmatics in linguistics. Analytical tools will be applied both to the wording and to the social context of meaning making so that students will be prepared to engage with 'problem-solving' research in a wide spectrum of specialized fields, with each field exemplified by work carried out by the teachers themselves - work in literature; politics; courtrooms and legal contexts; surgical and psychiatric training as well as related health sciences; financial domains; and theoretical tracts from physics, economics, and social sciences. While other courses share interest in some of these professional domains, this course is centrally concerned with students learning to select and apply linguistic tools of analysis. Course participants will design a mini project in an area of their own interest, collecting natural language data and analysing it to explain its patterns in relation to the demands of its social/institutional context.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are

available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Apply theoretical and technical knowledge to explain the relationship between language, society and culture in a range of real-world contexts.

ULO2: Critically evaluate discourse analysis research with respect overall research question, kind and extent of data used, choice of analysis, and interpretation of findings.

ULO3: Relate linguistic analysis of meaning in social context to real-world problems and domains of application.

ULO4: Understand what makes some kinds of linguistic data sensitive and subject to ethics approval.

ULO5: Communicate linguistic findings in standard written and/or spoken English within and beyond the academy.

Assessment Tasks

Coronavirus (COVID-19) Update

Assessment details are no longer provided here as a result of changes due to the Coronavirus (COVID-19) pandemic.

Students should consult [iLearn](#) for revised unit information.

[Find out more about the Coronavirus \(COVID-19\) and potential impacts on staff and students](#)

General Assessment Information

Late Assignment Submission

- Late submissions without an extension will receive a penalty of 3% of the total mark available for the assessment task per day including weekend days (i.e. this is 3% of the total marks possible for the task – NOT 3% of the marks the student received. For example, if the assessment task is worth 100 marks and the student is two days late their mark for the task is reduced by 6 marks.)
- Late submission of an assessment task without an extension will not be accepted at all after the date on which marked assessment tasks have been released to the rest of the class. Any student with unsubmitted work at this date will receive a mark of 0 for the assessment task.
- Extensions will only be given in special circumstances, and can be requested by

completing the Special Consideration request at ask.mq.edu.au and providing the requisite supporting documentation.

- Extensions that will result in submissions after the assessment task has been returned to the class will require a separate assessment task to be completed at the unit convenor's discretion.
- For more information on Special Consideration, see the university website <https://students.mq.edu.au/study/my-study-program/special-consideration>
- If a student fails the unit due to non-submission of an assignment or non-attendance at an exam, an FA grade will be applied in accordance with the University's Assessment Policy.
- Unit convenors have the discretion to determine whether or not students should fail a unit on the basis of lateness penalties alone if other learning outcomes of the unit have been met.

Extensions cannot continue beyond the start of the following semester, and students should be aware that long extensions may impact graduation dates.

Moderation of assessment

All assessment is marked by tutors and is moderated using pre-marking forms of standardisation such as the use of marking rubrics, and post-marking moderation such as sample checking and statistical analysis of the spread of marks to ensure fairness and consistency across the unit. Final marks are subject to ratification at the Faculty of Human Sciences exam meeting at the end of semester.

The unit schedule/topics and any references to on-campus delivery below may no longer be relevant due to COVID-19. Please consult [iLearn](#) for latest details, and check here for updated delivery information: https://ask.mq.edu.au/account/pub/display/unit_status

DRAFT UNIT SCHEDULE

Week	Topic
1	What is a text? What is discourse? Why the two terms? How does such investigation ‘make a difference’?
2	What are registers? Discourse variation shaped by the immediate situation of meaning making.
3	Register compared to other concepts of language variation – from situation to the noises we make. Why a register is not a dialect.
4	What is the relationship between a register and the systems of grammar it draws upon?
5	Case studies and texts as evidence 1: discourses and political persuasion
6	Case study 2: the role of discourse in mental well-being and in re-establishing mental health
7	Case study 3: Discourses and texts revered or valued in religions
8	Discourses in “literature” or verbal art
9	Discourse, Texts, and Fictions
10	From book to film; from textbook to iconic visualization
11	The relationship between wording and diagrams and graphs: the science of representing science.
12	Text, Discourse and the human brain
13	Reading Week
