Unit description
This unit will provide an opportunity for you to revise, reflect and be assessed on your consolidated learning across Stage 1 of the Macquarie MD. It will involve a weekly longitudinal lecture program that runs across the entire duration of the year (MDA and MDB), as well as special sessions and seminars focused on developing the skills involved in responding to feedback, developing action plans and critically reflecting on performance. You will use your experiences, learning, and reflective activities across the year to reflect on your Macquarie Assessment Portfolio. You will learn how to evaluate feedback, create action plans to address feedback and reflect critically on their professional development, in reference to mid-program capability aspects, expectation statement and Stage 1 EPAs.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes

On successful completion of this unit, you will be able to:

> **ULO1:** Analyse your achievement of the Stage 1 Macquarie MD capability expectation statements, in the domains of Scientist & Scholar, Clinical Practitioner, Engaged Global

Citizen, and Professional (Capability 1: Scientist and Scholar, 2: Clinical Practitioner, 3: Engaged Global Citizen, and 4: Professional)

ULO2: Discuss progress of level of entrustment over Stage 1 with reference to the Stage 1 Entrustable Professional Activities (Capability 2: Clinical Practitioner)

ULO3: Use feedback from teachers, clinicians, peers and patients, to inform self-evaluation and critical reflection (Capability 4: Professional)

General Assessment Information

Detailed information regarding the assessment for the Macquarie MD is available on the **Macquarie MD Assessment 2019 Intake** iLearn site. Further details for each assessment task can be found there.

GRADING

In this unit two types of grading will be used, and a supervision recommendation will be given where a clinical assessment relates to a Stage 1 Entrustable Professional Activity (EPA). The integrated examination will be graded numerically with a standardised mark out of 100, while other assessments will be coarse graded. Coarse grades (P+, P, P-, F) will be assigned to the focused and generic MD Capability Aspects as well as overall task performance. The numeric marks for the examinations and overall coarse grade for the assessment task weighted according to their contribution will be used to calculate the overall unit aggregate. Unit outcomes, based on the unit aggregate, will be reported to the University using the standard Macquarie grades (High Distinction, Distinction, Credit, Pass, Fail). Because most assessment tasks in the unit are coarse graded, a **single numerical grade (SNG)** equivalent will be reported for each University grade. Both the numeric equivalents for the coarse grades used in the calculation of the unit aggregate and the conversion of the aggregate to a single SNG are available in the Macquarie MD Rules of Assessment and Progression document posted in the Policies and Guidelines section of the **MDCU Doctor of Medicine Community** iLearn site.

All final grades in the Macquarie MD are reviewed by the MD Course Board and Faculty Assessment Committee and ratified by the FMHHS Faculty Board so therefore are not the sole responsibility of the Unit Convenor.

To pass this unit, students must demonstrate sufficient evidence of achievement of the learning outcomes, attempt all assessment tasks, meet any ungraded requirements which include professionalism, and achieve a unit aggregate of 50% or better.

EXTENSIONS FOR ASSESSMENT TASKS

Applications for assessment task extensions must be submitted via www.ask.mq.edu.au. For further details please refer to the Special Consideration Policy available at https://students.mq.edu.au/study/my-study-program/special-consideration.

PROFESSIONAL EXPECTATIONS

Professionalism is a key capability embedded in the Macquarie MD. Professional Behaviour Notifications (PBN) which can be a breach (PBNB) or a commendation (PBNC) may be

awarded. PBNs will be recorded in the student's portfolio. As part of developing professionalism, Macquarie MD students are expected to attend all small group interactive sessions including clinical, practical, laboratory and team-based learning activities. If attendance is deemed to be of concern, the student will be referred to the Lead (Student Professionalism) for remediation, subsequent monitoring, and recording in the portfolio. Similarly, as part of developing professionalism, Macquarie MD students are expected to submit all work by the due date. Late submission without prior approved extension will result in a professional behaviour notification-breach (PBNB) in the portfolio.
