Unit description

The music industry is among the largest worldwide, and music is a pervasive part of our lives. We turn on music while driving, we listen to music at parties, bars and restaurants. We dance to music, shop to music, sing in the shower, and attend concerts. Yet the psychological and social significance of this aspect of our lives is not widely understood. The goal of this unit is to expose students to the psychological and social dimensions of music in everyday experience. The unit examines current psychological research on music, and explores the social significance of music in our world. By the end of the unit, students have an understanding of the cognitive and emotional implications of music, and have the skills to critically analyse the layers of significance associated with a range of musical genres, from hip-hop and heavy metal, to opera and chamber music. This unit is subject to a quota.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

**ULO1:** Demonstrate knowledge of research findings and theories about foundational aspects of music psychology.

**ULO2:** Apply techniques of semiotics to understand the social and cultural significance of music.

**ULO3:** Competently use film and sound editing software, and develop skills of storyboarding, editing, and production as part of a creative project.

## Changes since First Published

Date	Description
24/03/2020	I just corrected the date of the midterm test to April 1st - given the original date ("week 4") was cancelled by the University.
24/02/2020	I removed the week by week list of topics, because these are posted on my iLearn space and I thought it would permit greater flexibility if I didn't also publish the weekly topics on iTeach.
