Co-badged status
Unit description This is the second of two online units that build upon the anatomy taught in undergraduate medical programs. You will revise the gross anatomy of the human body, with an emphasis on clinically oriented and surgically applied anatomy and discuss relevant embryology and medical imaging. You will engage with the unit via the University's iLearn platform where activities are set, and follow-up formative quizzes are completed. Topic areas covered include; the anatomy of the nervous system, thorax, abdomen and pelvis. This unit is designed to prepare you for the level of anatomical knowledge required for the intensive Anatomy of the Whole Body Dissection unit.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Apply an advanced knowledge of the anatomy of the nervous system, trunk and its viscera in clinical and surgical settings and medical images.

ULO2: Effectively articulate differences in anatomical features to inform and justify clinical decisions.

ULO3: Analyse major developmental events of the nervous system, trunk and viscera to describe common embryonic malformations.
