Unit description

This unit focuses on the principles of starting-up a new business venture. Throughout the session we will discuss and critically reflect upon the economic, technological, societal, and global dimensions of entrepreneurship, and explore a range of concepts, models and approaches that represent the theory of entrepreneurship. You will apply this knowledge to practice by working in teams to experience multiple aspects of a new venture start-up. These will include ethical, societal and financial considerations, the creativity of developing a business idea, the development and formulation of a business model and plan, as well as unique marketing issues, ownership, growth and global aspects of entrepreneurship. Successful completion of the unit will provide you with knowledge and tools that will support you in your own entrepreneurial endeavours.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Identify and explain a range of concepts, models and approaches that represent the theory of entrepreneurship and apply them to practical situations.

ULO2: Design new business ventures with the consideration of a range of economic, societal, technological and global aspects of entrepreneurship.

ULO3: Work in a team to communicate the challenges and tasks involved in a new venture start-up, both orally and via the written word.

ULO4: Critically reflect on the theoretical concepts and nature of entrepreneurship to solve problems.
