Unit description

This unit will equip students with the ability to analyse complex business problems from the cross-functional and multi-dimensional perspective required by general managers. The unit examines the process of formulating competitive strategy at the business level based on systematic analysis of a firm's internal resources and capabilities in conjunction with a structured examination of the various dimensions of its environment. On the basis of this analysis, appropriate strategies with which to pursue sustainable competitive advantage and strategic congruence can be developed. Topics addressed include business-level and corporate-level strategy, innovation and entrepreneurship, and dynamic strategy and game theory.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Analyse and explain the nature and scope of the strategic management process and how strategy is dependent on stakeholders and group processes.

ULO2: Critically evaluate an organisation, its strategy and its environment in terms of congruence or strategic fit.

ULO3: Apply key strategic management tools and models to synthesise complex problems in strategic management.

ULO4: Investigate, select and appraise the empirical research underpinning key theoretical concepts and/or issues in strategic management.
