Unit description

This double unit (equivalent to two units) helps students integrate, synthesise and practically apply the knowledge and skills gained over the course of their studies. Students will research and apply established theories to develop a proposed solution to a selected business issue, in the context of a real-world organisation.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Identify and apply theoretical frameworks, tools and techniques acquired throughout the core units relevant to a project in order to support strategic options and recommendations.

ULO2: Develop and present a project solution and report which is persuasive and grounded in academic literature and proven research methodologies.

ULO3: Apply problem solving skills, both as an individual and as part of a team, to communicate solutions.

ULO4: Reflect and report on the knowledge gained throughout the project both in terms of technical skills and broader graduate capabilities, including dealing with complexity, ambiguity and resilience challenges.

Assessment Tasks
