Unit description

The notion of the "normal" is surprisingly recent but has come to have a powerful role in shaping individual bodies and lives, how people interact and the ways populations are managed and organised. In this unit, we use various frameworks from media and cultural studies, gender studies, queer theory, disability studies, the environmental humanities and science and technology studies, to consider often unquestioned assumptions about what constitutes a 'normal' body. How are these norms created and, in particular, how do they shape the experiences of people who challenge them? We will consider how conceptions of normalcy are deployed and challenged in screen texts and media practices including documentaries, "selfies" in social media, self-monitoring and self-management using apps, as well as autobiographical video and film. This will allow us to explore how ideas about "normality" and "abnormality" come to form part of our everyday lives. Our critical examination may cover disability, pregnancy, fatness, ageing, work, time, relationships with non-human, surgical interventions and other forms of body modification. The aim of this unit is to think through the ways in which various forms of embodiment are understood in contemporary culture and to explore the social, political and ethical effects of these understandings.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://students.mq.edu.au/important-dates>

Learning Outcomes

ULO1: analyse the ways in which 'the body' is understood and experienced across a range of contexts.

ULO2: interrogate key concepts around 'the body' and normalising practices, showing an awareness of debates around definitions of these terms.

ULO3: communicate a theoretically-informed account of the relationship between forms of knowledge and forms of embodied subjectivity and sociality.

ULO4: apply key methods of critical analysis to discuss social, economic, legal and/or medical practices which focus on bodily-being.

ULO5: communicate ethics in contemporary practices and debates around normalisation of 'the body'.

Practices on late submission

Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – two (2) marks out of 100 will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted more than seven (7) days (incl. weekends) after the original submission deadline. No late submissions will be accepted for timed assessments – e.g. quizzes, online tests.

Assessment Tasks

Case-study based essay

Assessment Type ¹: Essay

Indicative Time on Task ²: 35 hours

Due: **Essay Fri May 1 (Wk 8). Plan due 11pm Fri April 3 (Wk 6).**

Weighting: **40%**

Students will write a case study essay, developed on the basis of an essay plan.

Refer to iLearn for further information.

On successful completion you will be able to:

- analyse the ways in which 'the body' is understood and experienced across a range of contexts.
- interrogate key concepts around 'the body' and normalising practices, showing an awareness of debates around definitions of these terms.
- communicate a theoretically-informed account of the relationship between forms of knowledge and forms of embodied subjectivity and sociality.
- apply key methods of critical analysis to discuss social, economic, legal and/or medical practices which focus on bodily-being.
- communicate ethics in contemporary practices and debates around normalisation of 'the body'.

Reflective summaries

Assessment Type ¹: Reflective Writing

Indicative Time on Task ²: 30 hours

Due: **Reading summaries weekly Mon 9am. Final reflection 2 June.**

Weighting: **30%**

Students will write a week by week summary of key readings and will write a final reflection on

the way understandings of key readings have been shaped by in-class learning.

Refer to iLearn for further information.

On successful completion you will be able to:

- analyse the ways in which 'the body' is understood and experienced across a range of contexts.

Reflective presentation

Assessment Type ¹: Media presentation

Indicative Time on Task ²: 25 hours

Due: **Monday 25 May (Week 12)**

Weighting: **30%**

Students will be asked to prepare a presentation using a choice of media (video, powerpoint slides with voiceover, audio etc) to be posted online or presented in class.

Refer to iLearn for further information.

On successful completion you will be able to:

- analyse the ways in which 'the body' is understood and experienced across a range of contexts.
- communicate a theoretically-informed account of the relationship between forms of knowledge and forms of embodied subjectivity and sociality.
- apply key methods of critical analysis to discuss social, economic, legal and/or medical practices which focus on bodily-being.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

This unit will use iLearn for submission of assignments, including reflections. However, attendance at lectures and tutorials is highly valued. Educational research has repeatedly demonstrated that attendance at class correlates closely with grades. Lectures in this unit are interactive - we will be discussing ideas, analysing materials and brainstorming in the lecture and these kinds of class discussions in lectures are poorly recorded on iLecture, making face-to-face attendance highly valuable for students. I also really enjoy the opportunity to hear your ideas and experiences so please do attend!

Reading the set texts for the week is essential for completion of the unit. Reflective summaries

of key readings must be submitted on-line BEFORE that week's lecture and tutorials. These summaries are **not** expected to be written beautifully or show an in depth understanding of the reading - they just need to be completed in a timely way on the appropriate two readings. The main purpose of the summaries is to prepare you for discussions in tutorials - if you don't understand everything in the reading when you write the summary that's fine!

The final reflection, due in Week 13, will require you to describe three moments across the course of the semester where your understanding of a reading changed after participating in a lecture or a tutorial. Your summaries will be a great resource for this reflection, but obviously to reflect on your experiences in class you need to come along!

The readings for the unit will be available in electronic format in the library. The link to Leganto in ilearn will take you directly to the readings. Please let me know if there are any problems with availability.

Suggestions for further readings are offered for most weeks, to enable deeper reading on the topic for those who are passionately interested, or are writing an essay or putting together an autobiographical reflection on that theme. These are just the starting point for your further reading.

PLEASE do use the library as a resource for your essays as well as for the weekly readings. Millions are spent purchasing subscriptions to the academic journals and databases held there - they cover much more territory than Google Scholar or other publicly available databases. If you struggle to find appropriate material, please get in contact with Nicole or speak to the staff at the library.
