Unit description

The fundamentals of financial management are introduced from the perspective of the finance manager in a firm, namely those making investment, financing and dividend decisions.

Finance theory is applied with the aim of providing a coherent framework and insights to assist in forming reasoned judgements. Case studies and financial planning models are used to provide context. The unit covers methods used in evaluating investment projects, assessing risk for competing projects, valuation and capital structure.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Apply finance theory, frameworks and methods to form evidence-based and strategic investment solutions for a range of problems.

ULO2: Evaluate the implications of a firm's finance and investment decisions/strategies for stakeholders both as an individual and a group.

ULO3: Analyse and employ models of business finance performance to measure and

track the firm's value creation across the firm's operations both as an individual and a group.

General Assessment Information

Extensions and Penalties:

No extensions will be granted. There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission – 20% penalty). This penalty does not apply for cases in which an application for special consideration is made and approved. No submission will be accepted after solutions/results/feedback have been posted.
