Unit description This unit introduces students to the discipline of psychology through a focus on the physiological bases of behaviour; learning; motivation; the nature of personality and psychopathology; and cross-cultural and Indigenous psychology. The unit conveys information about substantive material, and assumptions of theory associated with the science and profession of psychology through lecture and tutorial/practical classes. The unit introduces students to research methods in psychology through a series of methodology lectures. A further important aim of the unit is to develop students' competency in critical thinking and essay writing in psychology.

Important Academic Dates
