Unit description

This unit equips managers with the skills and tools to construct, analyse, interpret and act upon the accounting and financial information produced within a business. This discussion and analysis begins with the three financial statements targeted at external users: the Profit and Loss Statement, the Balance Sheet, and the Statement of Cash Flows. The unit then proceeds into the analysis, interpretation, and the use of management accounting information for the purpose of managerial decision making. Real life complexities in the decision making process are highlighted.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Apply models employed in management decision making to solve problems.

ULO2: Evaluate a range of business indicators to measure and track the firm's value creation.

ULO3: Critically analyse the implications of a firm's decisions/strategies for a range of stakeholders in view of the firm's strategic considerations.

ULO4: Apply finance, accounting and economic theories, frameworks and methods to make business decisions.
