Unit description

Geologists are investigating whether we have entered a new geological epoch known as the Anthropocene in which humanity is a driving force of global environmental change. With human activities increasingly connected to processes of planetary degradation there is an urgent need for multidisciplinary research that overcomes traditional divides between physical scientists, social scientists and environmental humanities researchers. This unit offers an interdisciplinary and critical introduction to Anthropocene studies, an important area for current and future research. The unit focuses upon how we should live in the Anthropocene and respond to the knowledge that current socioecological practices are not sustainable. Some key themes include: histories of the Anthropocene; human-nature relations; social and environmental justice; Indigenous knowledges; non-human agency; environmental governance; activism and impacts. The unit is team taught involving leading thinkers from across the university. It is designed to be accessible to students from a wide range of backgrounds and incorporates considerable flexibility to steer assessments towards your research interests.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Develop advanced multidisciplinary knowledge and understanding of the challenges posed by the Anthropocene.

ULO2: Identify and reflect on novel areas of research and engagement across human and non-human boundaries.

ULO3: Conceptualise links between Anthropocene issues and personal research interests.

ULO4: Develop and apply research design and practice skills that engage with emergent themes of the Anthropocene.

ULO5: Improve skills in written, verbal and conversational forms of research communication.

Assessment Tasks

Coronavirus (COVID-19) Update

Assessment details are no longer provided here as a result of changes due to the Coronavirus (COVID-19) pandemic.

Students should consult [iLearn](#) for revised unit information.

[Find out more about the Coronavirus \(COVID-19\) and potential impacts on staff and students](#)

General Assessment Information

Late Assessment Penalty

Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – two (2) marks out of 100 will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted more than seven (7) days (incl. weekends) after the original submission deadline. No late submissions will be accepted for timed assessments – e.g. quizzes, online tests

Delivery and Resources

Coronavirus (COVID-19) Update

Any references to on-campus delivery below may no longer be relevant due to COVID-19.

Please check here for updated delivery information: https://ask.mq.edu.au/account/pub/display/unit_status

FOAR703 will be taught through a series of two-hour discussion-based workshops hosted by researchers from across the University. Students will be set required readings before the workshop and these readings will form the basis for in-depth workshop discussions. The unit is supported by an iLearn website – where readings and assessment instructions and criteria will

be made available. Please note that this unit requires compulsory attendance at the workshops. Recordings of workshops are not available on iLearn.
