Unit description

This unit introduces students to theoretical and clinical perspectives on children's acquisition of speech and language in the infant, toddler, and pre-school years. These topics are discussed with respect to typical as well as less typical language development. Tutorials and assignments focus on the understanding and communication of language development research to parents, and analysing linguistic data in preparation of clinical diagnosis.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

**ULO1:** Demonstrate and apply an advanced understanding of how typically developing children (0-5) develop speech and language.

**ULO2:** Communicate a basic understanding of ways that speech and language development can be atypical.

**ULO3:** Evaluate and make informed decisions regarding theories and research in typical and atypical speech and language development.

**ULO4:** Demonstrate the ability to work as part of a team to communicate language acquisition research and its implications to the general public.

**ULO5:** Discuss the impact that (atypical) speech and language development has on the children's family and on their own ability to participate in society.

**ULO6:** Analyse, interpret, and report on speech and language samples.

Students have access to weekly **lectures**, weekly required **readings** on Leganto, weekly **tutorial sessions** (some weeks excepted), and the **assignment-specific resources** on iLearn and Leganto.

All required readings and lecture materials provide the necessary content knowledge for successful completion of the exam and provide the basis for successful completion of the assignments.

Tutorials are specifically designed to develop the skills required for the successful completion of the assignments and the exam.

Preparation for and attendance at all classes - both lectures and tutorials - is expected. We are here to support your learning and we can only do this successfully through structured contact to guide you through the materials and techniques.

We welcome all your **questions** during the lectures and tutorials. Please never hesitate to come to talk to us! You can also pose written questions on the iLearn discussion fora, for your peers, tutor, or lecturer to answer. Content messages that are sent via the personal iLearn messages may be (anonymously) re-posted in the discussion fora. Our aim in doing this is providing all students with access to the same information. Questions of a personal nature are of course excluded from this procedure. Please contact the unit convener directly if you have any personal questions or concerns.

## Results

Results published on platform other than [eStudent](#), (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in [eStudent](#). For more information visit [ask.mq.edu.au](http://ask.mq.edu.au) or if you are a Global MBA student contact [globalmba.support@mq.edu.au](mailto:globalmba.support@mq.edu.au)

- Late submissions without an extension will receive a penalty of 3% of the total mark available for the assessment task per day including weekend days (i.e. this is 3% of the total marks possible for the task – NOT 3% of the marks the student received. For example, if the assessment task is worth 100 marks and the student is two days late their mark for the task is reduced by 6 marks.)
- Late submission of an assessment task without an extension will not be accepted at all after the date on which marked assessment tasks have been released to the rest of the class. Any student with unsubmitted work at this date will receive a mark of 0 for the assessment task.
- Extensions will only be given in special circumstances, and can be requested by completing the Special Consideration request at [ask.mq.edu.au](http://ask.mq.edu.au) and providing the requisite supporting documentation.
- Extensions that will result in submissions after the assessment task has been returned to the class will require a separate assessment task to be completed at the unit convenor's discretion.
- For more information on Special Consideration, see the university website <https://students.mq.edu.au/study/my-study-program/special-consideration>
- If a student fails the unit due to non-submission of an assignment or non-attendance at an exam, an FA grade will be applied in accordance with the University's Assessment Policy.
- Unit convenors have the discretion to determine whether or not students should fail a unit on the basis of lateness penalties alone if other learning outcomes of the unit have

been met.
