Unit description

It is frequently stated that we are living in a borderless and highly globalised world, where humans and capital move freely between nation states. At the same time, there has been a proliferation of border walls erected across the globe, while various other controls of human mobility are seen not only at international boundary lines, but also within our day-to-day lives, including our places of work and education. How then can we make sense of the myriad forms of borders and bordering in a supposedly borderless world? This unit will provide a critical investigation of the role of international borders, their management and policing, disputes over territory, and their impact upon migration in a global context. The unit will draw connections between theoretical approaches and contemporary Australian and international examples. Students will trace the life of borders from their inception to their removal (and often their re-inception), the diverse forms they take, and how they are managed. Students will develop a deeper understanding of contemporary human mobility, the means in which it is controlled across differing scales, and the diverse impacts upon various communities.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Identify and discuss the significance of a geographical perspective on borders.

ULO2: Describe and explain the geopolitical role of international borders and boundaries in a supposedly borderless and globalised world.

ULO3: Critically examine how borders are formed, managed, monitored, policed, fortified, contested, breached, and dismantled.

ULO4: Recognise the importance of territory to bordering and the ways in which nation states control both territory and mobility.

ULO5: Apply geographical concepts to evaluate the impacts of borders and territorial disputes on diverse populations.

General Assessment Information

Late Assessment Penalty

Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – two (2) marks out of 100 will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted more than seven (7) days (incl. weekends) after the original submission deadline. No late submissions will be accepted for timed assessments – e.g. quizzes, online tests.
