Prerequisites

130cp at 1000 level or above including MUS203 or MMCC2033

Corequisites

Co-badged status

Unit description

This unit examines techniques for music production. Moving beyond desktop music production and software tools, students learn about the recording studio environment by using studio hardware and production tools. Students produce original creative music works using a fully-equipped music studio, gaining practical studio experience. Further aspects of this course include the establishment of critical listening skills, research of specific musical genres, and the development of an understanding of audio production concepts in a recording studio environment. Students obtain a knowledge base which may be applied to many areas of music production in real-world contexts, and create recordings that incorporate a practical and theoretical understanding of contemporary music production.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: apply advanced music production techniques and digital audio concepts.

ULO2: create and arrange musical works.

ULO3: research a range of contextually relevant production and recording practices.

ULO4: analyse sonic texts in terms of production techniques, composition, and context.

ULO5: critique and evaluate the creative process of music production.

ULO6: research contemporary production practices and technologies.

Assessment Tasks

Coronavirus (COVID-19) Update

Assessment details are no longer provided here as a result of changes due to the Coronavirus (COVID-19) pandemic.

Students should consult [iLearn](#) for revised unit information.

[Find out more about the Coronavirus \(COVID-19\) and potential impacts on staff and students](#)

General Assessment Information

Production Work Requirements

All students must undertake their work for this unit using the university facilities in 10HA. All students must pass a basic competency test (carrying no marks) before they are given access to the booking system.

All recordings must be made in department recording facilities and files (including progress and final assignment files) must be stored on the NEXIS file server. Instructions will be given on using NEXIS in class. Production assignment files must be uploaded to the NEXIS file submission drive by the listed due date. Proper file management and delivery via NEXIS form part of the assessment criteria. Evidence of timely bookings to complete production projects within deadlines are also used to assess the quality of planning for each project. All written assignments must be uploaded to the TurnItIn links on the iLearn website.

Academic Integrity and Originality

University policies on academic integrity apply to production work in addition to written work. All production work must be your own. Assessment is individually based and not group based. Students must certify that all production work is their own and they have not included work from any other individual. Students may use others as performance talent but must not use production materials from others, or involve others in the production process. Original recordings of existing musical works are permitted. Use of commercial sample libraries is permitted as long as samples are credited. Please be aware that sampling released music constitutes a breach of copyright and so students should not include this material in their assignments.

Late Submissions

Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – two (2) marks out of 100 will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted more than seven (7) days (including weekends) after the original submission deadline. No late submissions will be

accepted for timed assessments – e.g. quizzes, online tests

Assignment Grading

All assignments of this unit are aligned to the standards outlined in the Macquarie University Assessment Policy (<https://staff.mq.edu.au/work/strategy-planning-andgovernance/university-policies-and-procedures/policies/assessment>). A marking rubric for each of the assignment is available on iLearn. Students are expected to read the rubric before working on the assignment.

Feedback

Feedback will be given to students via the following ways:

Whole class:

- Comments from the unit convenor in the forum discussions and unit activities
- Through the 'announcement' function in iLearn, if there are points of relevance to the whole class
- Consolidated feedback on whole of class assignment performance, summarising key strengths and weaknesses (in class and/or via video feedback for technical concepts requiring revision)

Individual

- The ongoing opportunity discuss assignment progress with the convenor via email or face to face student consultation. This provides a mechanism to provide feedback on progress made, prior to submission.

Formal

- Text based comments attached to assignments marked in Turnitin/GradeMark

Marks are made available through the Gradebook function in iLearn

Examples of work

Examples of relevant and related assessment tasks will be made available via seminars

Assessment standards - rubrics

Rubrics for each assignment are made available on the iLearn. Students are encouraged to consult these before commencing an assignment.

Delivery and Resources

Coronavirus (COVID-19) Update

Any references to on-campus delivery below may no longer be relevant due to COVID-19.

Please check here for updated delivery information: https://ask.mq.edu.au/account/pub/display/unit_status

Attendance

Students are expected to attend all scheduled classes. Classes are not optional. They deliver important content and are a central component of meeting the learning outcomes in this unit. Classes provide students with the essential production skills required to successfully complete assignments. Academic and/or technical staff cannot deliver technical instruction to students that is already covered in the timetabled classes. This is why attendance is essential. Students who elect to not attend classes will miss out on unit content and technical demonstrations risk failing the unit. Students who miss classes due to illness should speak with the convenor as soon as possible to discuss how to catch up on the missed content. Attendance will be recorded.

Required Equipment

You will need to bring a pair of good quality headphones to lab based tutorials and for all individual lab work sessions. In-ear (iPod-style) headphones are not appropriate. 6.5mm jack outlets are provided in the labs for headphone monitoring (3.5mm mini-jacks are not supported). Consider your headphones an investment. Technical staff will provide advice if necessary.

Commencement of teaching

Seminars will commence in Week 1. No advance reading or preparation is required.

Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central](https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central) (<https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central>). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- [Academic Appeals Policy](#)
- [Academic Integrity Policy](#)
- [Academic Progression Policy](#)
- [Assessment Policy](#)
- [Fitness to Practice Procedure](#)
- [Grade Appeal Policy](#)
- [Complaint Management Procedure for Students and Members of the Public](#)
- [Special Consideration Policy](#) (**Note:** *The Special Consideration Policy is effective from 4 December 2017 and replaces the Disruption to Studies Policy.*)

Students seeking more policy resources can visit the [Student Policy Gateway](https://students.mq.edu.au/support/study/student-policy-gateway) (<https://students.mq.edu.au/support/study/student-policy-gateway>). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

If you would like to see all the policies relevant to Learning and Teaching visit [Policy Central](http://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central) (<http://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central>).

Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: <https://students.mq.edu.au/study/getting-started/student-conduct>

Results

Results published on platform other than [eStudent](#), (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in [eStudent](#). For more information visit ask.mq.edu.au or if you are a Global MBA student contact globalmba.support@mq.edu.au

Student Support

Macquarie University provides a range of support services for students. For details, visit <http://students.mq.edu.au/support/>

Learning Skills

Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to help you improve your marks and take control of your study.

- [Getting help with your assignment](#)
- [Workshops](#)
- [StudyWise](#)
- [Academic Integrity Module](#)

The Library provides online and face to face support to help you find and use relevant information resources.

- [Subject and Research Guides](#)
- [Ask a Librarian](#)

Student Services and Support

Students with a disability are encouraged to contact the [Disability Service](#) who can provide appropriate help with any issues that arise during their studies.

Student Enquiries

For all student enquiries, visit Student Connect at ask.mq.edu.au
