Unit description

Marketing is a vital component to the success of any business. In a dynamic and competitive world, where consumers' preferences are changing rapidly, marketing helps business gain insights into customers and how to create value that is unique and relevant for customers, the business, and society as a whole. Marketing ensures that value is communicated and delivered effectively to customers in order to generate sustainable profit. Thus, it is critical to understand the role, the contribution, and the process of marketing within an organization.
