Unit description

Digital innovation is disrupting markets, organisations and management itself. It is an important means for creating value for customers and a necessary aspect of a modern manager's mindset. Managers have to be able to critically evaluate the nature and significance of digital technology to understand unfolding trends and avoid fads. Digital innovation also offers new techniques and tools for effective organisational management in dynamic environments. In this unit, students will develop the knowledge and skills required to manage technology and innovation. They will learn to reconceptualise how business is done with technology to promote sustainable business performance, research and design solutions to enhance decision making, and manage innovation.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

**ULO1:** Evaluate the concepts of digital innovations and disruption.

**ULO2:** Critique a range of digital business models which sustain competitive advantage in products and services.

**ULO3:** Apply digital business models to new business settings.

**ULO4:** Produce a business digital transformation plan that recommends solutions to enhance organisations' decision making and the management of innovation.

## Learning and Teaching Activities

### TechTalk workshops

Informal TechTalk workshops/demos will help students share their knowledge and broaden class understanding of digital technology: a) demonstrations of how basic internet technologies actually work. Topics might include TCP/IP, DNS, API, Cookies, CSS, HTML; b) mobile apps and

e-commerce platforms; c) IoT technologies and tech gear. You should plan to present one 5 minute TechTalk during the term in which you will demo a technology to the class.

## **Knowledge base**

Students are encouraged to contribute to the development of a shared KB to support class (social) learning.
