Unit description

This unit provides speech pathology students with an understanding of the body systems that mediate swallowing, speech, and language across the lifespan. The unit introduces the behavioural manifestations of brain damage in acquired speech and language disorders. The nature, impact, and assessment of dysphagia in adults and children are covered in depth.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Identify, describe, and analyse the neurophysiological bases of speech, language, and swallowing in children and adults.

ULO2: Identify, describe, and analyse disruptions to the neuro-physiological bases of speech, language, and swallowing causing impairments relevant for speech pathology practice.

ULO3: Apply knowledge of the neurophysiological bases of swallowing to the assessment and differential diagnosis of dysphagia in children and adults.

ULO4: Integrate the outcomes of dysphagia assessment focused on body functions and

structures with other sources of information, with a view to comprehensive, client-centred assessment.

Assessment Tasks

Coronavirus (COVID-19) Update

Assessment details are no longer provided here as a result of changes due to the Coronavirus (COVID-19) pandemic.

Students should consult [iLearn](#) for revised unit information.

General Assessment Information

Word limits

Assessment submissions with excessive word counts will receive a penalty commensurate with the amount the submission has exceeded the word limit stated in the assessment description.

Excessive word counts will result in the following penalties:

- From 11 to 20% over the word limit = reduction by one grading band.
- More than 20% over the word limit = reduction by **at least** two grading bands, with further penalties applied at the discretion of the unit convenor.

For example: Word limit = 2000 words; Submission word count = 2240, i.e., 12% over the limit, and therefore a penalty is applied as follows:

- Initial grade = D
- Penalty = reduction of one grading band
- Final grade = C

Penalty for late submission

Late submission of assessments will result in the following penalties:

- 1 day late = reduction by **no more than** one grading band, at the discretion of the unit convenor
- 2 days late = reduction by **no more than** two grading bands, at the discretion of the unit convenor
- 3 or more days late = reduction by **at least** two grading bands, with further reductions at the discretion of the unit convenor

For example: A submission is two days late, and therefore a penalty is applied as follows:

- Initial grade = HD

- Maximum penalty = reduction of two grading bands
- Final grade = C

Delivery and Resources

Coronavirus (COVID-19) Update

Any references to on-campus delivery below may no longer be relevant due to COVID-19.

Please check here for updated delivery information: https://ask.mq.edu.au/account/pub/display/unit_status

Students will participate in 2 hour lectorial classes blending teacher-fronted delivery with small group activities. Students will be expected to engage with learning materials before attending and participating in weekly classes, and then to complete learning activities following class. All learning and teaching activities will occur over the standard 13 teaching weeks of the session. In addition, two anatomy labs form part of the structured learning activities in this unit.

Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central \(https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central\)](https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central).
