Unit description

In the era of significant market turmoil, institutional, as well as individual investors look beyond traditional investment vehicles such as bonds and shares. Alternative investments are the fastest growing, and probably the least understood, sector of the investment industry. The purpose of this unit is to explore the world of alternative investments such as investments in hedge funds, private equity / venture capital funds, real estate, and commodities, either directly or through funds of funds. The unit gives students a solid understanding of the industry knowledge and techniques that should be part of the toolkit of any money manager who advises private and institutional clients on the inclusion of alternative investments in their portfolio.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Examine the common features of alternative investments and their markets and distinguish among the principal classes of alternative investments.

ULO2: Apply valuation techniques to price alternative investments.

ULO3: Assess the benefits, such as return enhancement and/or risk diversification.

ULO4: Construct and evaluate a portfolio with alternative investments.

Assessment Tasks

Coronavirus (COVID-19) Update

Assessment details are no longer provided here as a result of changes due to the Coronavirus (COVID-19) pandemic.

Students should consult [iLearn](#) for revised unit information.

[Find out more about the Coronavirus \(COVID-19\) and potential impacts on staff and students](#)

General Assessment Information

Assessment criteria for all assessment tasks will be provided on the unit iLearn site.

It is the responsibility of students to view their marks for each within-session-assessment on iLearn within 20 days of posting. If there are any discrepancies, students must contact the unit convenor immediately. Failure to do so will mean that queries received after the release of final results regarding assessment tasks (not including the final exam mark) will not be addressed.

Late submissions and extensions

Tasks 10% or less – No extensions will be granted. Students who have not submitted the task prior to the deadline will be awarded a mark of 0 for the task, except for cases in which an application for special consideration is made and approved.

Tasks above 10% - No extensions will be granted. There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission – 20% penalty). This penalty does not apply for cases in which an application for special consideration is made and approved. No submission will be accepted after solutions have been posted.
