Unit description

This PACE unit is for students enrolled in the Advanced Science (Biology) Program. It provides an opportunity to engage with the community, learn through participation, and develop professional skills. It involves undertaking a research internship, which could occur locally, regionally, or overseas. Learning is supported by a series of one hour weekly tutorials to discuss hot topics and recent research advances in biology with a variety of scientists from diverse backgrounds. Entrance is strictly limited so that a small group is maintained to ensure personal contact with research professionals. Students will be required to produce a report (in scientific format) on their findings at an annual conference.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Solve problems in a real-world context using discipline-specific knowledge and skills acquired throughout the Biology program

ULO2: Employ the tools, methodologies, language and conventions of Biology to

develop and test new ideas

ULO3: Employ critically-reflective, self-directed, and self-motivated strategies for learning

ULO4: Work effectively and ethically in a multifaceted scientific environment

ULO5: Summarise and effectively communicate scientific ideas to different audiences

ULO6: Map discipline-specific knowledge, ethics, negotiation skills, cross-cultural and interpersonal skills to the requirements of a range of future career paths
