## General Information

Unit convenor and teaching staff
Credit points 10
Prerequisites Admission to MPSP or MPASR or GradCertPASR or GradDipPASR
Corequisites
Co-badged status
Unit description Social surveys are now used widely in policymaking, public debate, and social research. This unit provides students with a practical and theoretical guide to the use of surveys in social science research. The unit looks closely at how to administer social surveys, how to write good survey questions and the debates about the potentials and limits of this methodology in the social sciences. Social surveys are usually designed to enable the statistical analysis of survey data, so the second part of the unit is dedicated to introducing students to a range of statistical models including multiple regression model. In this unit, students will learn R language for analysing survey data.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

**ULO1:** demonstrate an understanding of the link between quantitative research design, survey procedure and statistical analysis.

**ULO2:** demonstrate and understanding of quantitative social science research critically.

**ULO3:** analyse survey data using appropriate statistical models.

**ULO4:** carry out a statistical analysis using R language.

**ULO5:** interpret statistical outputs in plain language.

**ULO6:** conduct original research using quantitative research methods.
