Unit description This unit will focus on individual research projects in translation and interpreting in order to enhance students' research capability. Students will be required to identify research problems based on personal learning reflections in areas such as skill development specific to translation and interpreting, data gathering and data analysis. Students will then be guided by individual supervisors to explore the identified research questions. Research supervisors will solidly guide students in terms of research design, data gathering and research implementation. Based on critical readings, classroom and/or online discussions, and feedback from supervisors, students will have an opportunity to further sophisticate techniques and methods of doing research by pursuing an area of research that is close to their own.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Assess the appropriateness of a research proposal with focused research questions and methodology.

ULO2: Demonstrate familiarity with translation and interpreting studies literature.

ULO3: Demonstrate critical analysis of translation or interpreting problems.

ULO4: Discuss and analyse findings of translation or interpreting research.

ULO5: Demonstrate an understanding of research methodology and apply it in an extended research project.

ULO6: Display an appropriate level of understanding of relevant literature
