## General Information

Unit convenor and teaching staff Unit Convenor Martina Linnenluecke <a href="mailto:martina.linnenluecke@mq.edu.au">martina.linnenluecke@mq.edu.au</a>
Credit points 10
Prerequisites Permission by special approval
Corequisites
Co-badged status AFIN8001
Unit description This unit is designed to introduce students to the major models of asset pricing and to rational expectations models. By using various asset pricing models, the unit will examine the economic intuition behind each model as well as providing a mathematically rigorous derivation of the model. The important features of these models, and their testable implications, will also be discussed.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

**ULO2:** Examine discrete time asset pricing models, like CAPM, APT, State Preference models and the Lucas model, and explain the economic intuition behind each model.

**ULO1:** Illustrate and apply modern portfolio theory.

**ULO3:** Evaluate continuous time models like Black-Scholes Pricing model, Merton model, Breeden model and CIR model.

**ULO4:** Critically appraise and review rational expectations models including Grossman model, Admati model, Kyle model and the extensions.

## Assessment Tasks

### Coronavirus (COVID-19) Update

Assessment details are no longer provided here as a result of changes due to the Coronavirus (COVID-19) pandemic.

Students should consult [iLearn](#) for revised unit information.

[Find out more about the Coronavirus \(COVID-19\) and potential impacts on staff and students](#)

## General Assessment Information

It is the responsibility of students to view their marks for each within session assessment on iLearn within 20 working days of posting. If there are any discrepancies, students must contact the unit convenor immediately. Failure to do so will mean that queries received after the release of final results regarding assessment marks (not including the final exam mark) will not be addressed.

Assessment criteria for all assessment tasks will be provided on the unit iLearn site.

**Late Submission:** Tasks above 10% - No extensions will be granted. There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission – 20% penalty). This penalty does not apply for cases in which an application for special consideration is made and approved. No submission will be accepted after solutions have been posted.
