### Unit description

This unit introduces students to the Australian legal system, relevant commercial legal principles, and corporate law and regulation. At the beginning of the unit students will identify core aspects of rights and liabilities, and the characteristics of business organisations generally. Thereafter, the unit focuses on Australian company law. Students develop an understanding of the nature and function of a company and will analyse important issues concerning the duties of directors, shareholder rights, takeovers and share market regulation, and corporate insolvency. Classes will include consideration of relevant legal issues, case law, and important sections of the Corporations Act. Completing this unit will equip students with relevant insights into the regulation of the commercial environment and the ability to critically assess and appraise the rights and obligations arising in the formation, management and functioning of a company.

## Delivery and Resources

**Classes** will progress through the various Lecture Areas referred to in this Unit Guide. Besides face-to-face delivery of lectures, an online version will be available for the students who are unable to return campus or who choose to continue their studies online. There may be some reorganisation, overlapping, and/or integration of areas to accommodate assessment, holiday scheduling, unit structure or class management. Note that together with the designated practice questions, the classes may cover other issues relevant to the unit.

The timetable for classes can be found on the University web site at:

<http://www.timetables.mq.edu.au/>

Students must remain in their allocated classes.

**Required Text: Quilter, *Company Law Perspectives*, 4th ed. 2020**, Thomson Reuters (Lawbook Co.).

**CLP 4th ed** will be available in the Macquarie University library. It can be purchased from the Macquarie University Co-op Bookshop and directly from the publishers Thomson Reuters via their website <https://legal.thomsonreuters.com.au/student/university/macquarie/>

The following is recommended for further reading: Lipton, Herzberg and Welsh, *Understanding Company Law*, Thomson Reuters (Lawbook Co.).

After considering the Australian legal framework and aspects of general commercial law the unit will focus on corporate issues and the relevance and effect of the Corporations Act. Note that certain relevant sections of the Corporations Act are set out in **Company Law Perspectives 4th ed. 2020**. Statutes may be viewed in full at [www.austlii.edu.au](http://www.austlii.edu.au)

Useful websites

- [www.asic.gov.au](http://www.asic.gov.au)
- [www.asx.com.au](http://www.asx.com.au)
- [www.takeovers.gov.au](http://www.takeovers.gov.au)

By using www resources students are able to gain a perspective on their studies and be aware of real-world situations where company law is relevant. Newspaper coverage of company law gives depth and realism to the formal explanations of the law in the text.

Unit material is available on the learning management system (iLearn)

This unit is taught by way of seminars. Practice questions are discussed to enable the application of content.

Students should take responsibility for their own learning and this will incorporate reading as required, attendance at seminars, developing effective study strategies, reflection on their abilities, and a task-oriented approach to assessment – that is, do not think solely about gathering information - think about what will be required - what makes for successful performance in tests, assignments, presentations and exams - how you will use the law you have studied. There are 2 main components of successful commercial and company law study: one is that students must have some knowledge of the core issues of the relevant topics [take short clear notes in classes, think about your task, involve yourself in classes], the second is that students will only be successful if they can apply what they have learned, that is, in your test, assignment, presentation or exam, you have to be able to use the law to solve problems, communicate, analyse and explain.

Students should be ready to allocate at least 150 hours during the session (in total) to ACCG6014. This includes all classes, assessment (estimates for assessment allocation are set out above under “Assessment Tasks”), personal study and other learning activities.
