Unit description

This unit develops students' abilities to conduct equity valuation for investment purposes. This advanced module introduces the techniques used by equity financial analysts to measure the worth of a company and its investments. Students assume the role of a financial analyst and learn the mechanics of financial valuation by: performing industry and financial analysis, measuring accounting quality, estimating discount rates, forecasting cash flows, and ultimately issuing a buy/hold/sell recommendation on the firm based on the estimated target price.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Explain the principles and theory behind each valuation technique.

ULO2: Evaluate various business valuation techniques and select and apply the most appropriate technique to real world valuation problems.

ULO3: Working collectively in a group to value the equity of a company and make recommendations.

General Assessment Information

Assessment criteria for all assessment tasks will be provided on the unit iLearn site.

It is the responsibility of students to view their marks for each within-session-assessment on iLearn within 20 days of posting. If there are any discrepancies, students must contact the unit convenor immediately. Failure to do so will mean that queries received after the release of final results regarding assessment tasks (not including the final exam mark) will not be addressed.

Late submissions and extensions

Tasks 10% or less – No extensions will be granted. Students who have not submitted the task prior to the deadline will be awarded a mark of 0 for the task, except for cases in which an application for special consideration is made and approved.

Tasks above 10% - No extensions will be granted. There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission – 20% penalty). This penalty does not apply for cases in which an application for special consideration is made and approved. No submission will be accepted after solutions have been posted.
