Unit description

This unit examines the macro view of international business, examining the underlying causes and benefits of trade and foreign direct investment flows between nations. The driving forces behind globalisation are examined, as are the costs and benefits to nations, industries and individuals flowing from the globalised economy. The firm-level aspects of international business are also considered to provide students with an understanding of some of the key issues faced by managers engaged in international business operations. We explore the development of international strategies appropriate for different business environments and the most commonly utilised forms of foreign market-entry modes, together with their implications for managers.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

ULO2: Evaluate the major influences on firms that participate in international markets.

ULO3: Analyse the complexity, managerial challenges and opportunities of the global business environment, including in the context of sustainability concerns.

General Assessment Information

There will be a **deduction of 20%** of the total available marks made from the total awarded mark for each **24 hour period** or part thereof that the submission is late (for example, 25 hours late in submission incurs a 40% penalty). Late submissions will be accepted up to 96 hours after the due date and time.

This penalty does not apply for cases in which an application for [Special Consideration](#) is made and approved. Note: applications for [Special Consideration Policy](#) must be made within 5 (five) business days of the due date and time.
