Macquarie University has taken all reasonable measures to ensure the information in this publication is accurate and up-to-date. However, the information may change or become out-dated as a result of change in University policies, procedures or rules. The University reserves the right to make changes to any information in this publication without notice. Users of this publication are advised to check the website version of this publication [or the relevant faculty or department] before acting on any information in this publication.

Notice

As part of [Phase 3 of our return to campus plan](#), most units will now run tutorials, seminars and other small group learning activities on campus for the second half-year, while keeping an online version available for those students unable to return or those who choose to continue their studies online.

To check the availability of face-to-face and online activities for your unit, please go to [timetable viewer](#). To check detailed information on unit assessments visit your unit's iLearn space or consult your unit convenor.

Unit description

This unit provides a platform for students to exercise the knowledge and skills that they have gained in previous units in the Master of Business Analytics. The major component of the unit is a project, where students will actively engage with a significant problem or set of problems in the area of analytics. Group work engages students in the challenges of interpersonal communication, task allocation, coordination and control. Students will gain an insight into the analytical problems faced by organisations and be able to contextualise their graduate capabilities into the final business project. The unit will consider key issues, concepts and frameworks of analytics ethics, and social responsibility, and how these can be applied to policy and practice. The class is conducted through lectures, workshops and discussions where students will develop an analytical solution around the client partner's specified information-based problem. Throughout the unit, the emphasis is on the analysis process: identifying information needs, acquiring the necessary information, interpreting it and using it as the basis for strategic recommendations.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Successfully work in teams and reflect on teamwork strategies in achieving group

objectives.

ULO2: Recognise and apply different perspectives on organisation problems in order to best frame possible solutions.

ULO3: Design and conduct an organisational and industry analysis to assess and resolve contextual constraints of a client organisation.

ULO4: Deliver an effective and well-justified data analytic solution.

ULO5: Examine Business Analytics contribution to individuals, organisations and society and predict the ethical implications relating to the use of data analytics for these stakeholders.

General Assessment Information

No extensions will be granted. There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission – 20% penalty). This penalty does not apply for cases in which an application for special consideration is made and approved. No submission will be accepted after solutions have been posted.

It is the responsibility of students to view their marks for each within-session assessment on iLearn within 20 working days of posting. If there are any discrepancies, students must contact the unit convenor immediately. Failure to do so will mean that queries received after the release of final results regarding assessment marks (not including the final exam mark) will not be addressed.

Assessment Tasks

Name	Weighting	Hurdle	Due
<u>Personal Report</u>	30%	No	03/08/20, 07/09/20, 26/10/20
<u>Client briefing report</u>	10%	No	04/09/20
<u>Client Report and Presentation</u>	60%	No	03/11/20

Personal Report

Assessment Type ¹: Report

Indicative Time on Task ²: 25 hours

Due: **03/08/20, 07/09/20, 26/10/20**

Weighting: **30%**

Students will reflect and write three short reports, worth 10% each, regarding the impact the following experiences/topics have had on them: 1) Learning experience across their Master of Business Analytics. 2) Teamwork. 3) Ethics.

On successful completion you will be able to:

- Successfully work in teams and reflect on teamwork strategies in achieving group objectives.
- Deliver an effective and well-justified data analytic solution.
- Examine Business Analytics contribution to individuals, organisations and society and predict the ethical implications relating to the use of data analytics for these stakeholders.

Client briefing report

Assessment Type ¹: Professional writing

Indicative Time on Task ²: 10 hours

Due: **04/09/20**

Weighting: **10%**

Students will provide a report on their individual interpretation of the briefing, recognition of potential problems and perspectives on potential solutions, for the client organisation.

On successful completion you will be able to:

- Recognise and apply different perspectives on organisation problems in order to best frame possible solutions.
- Deliver an effective and well-justified data analytic solution.
- Examine Business Analytics contribution to individuals, organisations and society and predict the ethical implications relating to the use of data analytics for these stakeholders.

Client Report and Presentation

Assessment Type ¹: Project

Indicative Time on Task ²: 55 hours

Due: **03/11/20**

Weighting: **60%**

Students will be required to work in teams on a client organisation issue. Students will be required to: 1) Submit a short group progress report on their progress to date, any issues that have been dealt with and the likely outcomes of their analysis, in the weeks preceding the Client Report and Presentation. 2) Write a professional group report for the client organisation. 3) Deliver a formal presentation to the client organisation. Each student will be individually assessed for their presentation skills (worth 10%).

On successful completion you will be able to:

- Successfully work in teams and reflect on teamwork strategies in achieving group objectives.

- Recognise and apply different perspectives on organisation problems in order to best frame possible solutions.
 - Design and conduct an organisational and industry analysis to assess and resolve contextual constraints of a client organisation.
 - Deliver an effective and well-justified data analytic solution.
-

¹ If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

Classes

The unit will be offered online. All seminars and assessment tasks will be conducted online

The unit is comprised of 13 x 3-hour seminars in weeks 1 to 13. Each weekly seminar includes recorded content coupled with Zoom Q&A sessions on iLearn.

Students can join weekly Zoom sessions via this link: <https://macquarie.zoom.us/j/99331968204?pwd=QkR5Q21MSHFERC9pejYrMnJmVTVPQT09>

Password: 405375

With relatively small numbers in this class this session, we have some flexibility with our timetable. We shall meet at agreed times each week in the scheduled seminar room.

Group Work

Group work is an inherent requirement for completing this unit satisfactorily.

Required unit materials and/or recommended readings

Textbook

No formal textbook has been set for this unit. None suits the range of topics introduced here.

Recommended Readings

As a Capstone Unit, we will have some recommended readings included in the *iLearn* website for this unit so that we can better understand the context in which we are applying our analytical knowledge.

Technology used and required

We will make use of Data-Visualisation software, **Tableau®**. We have a teaching license for the semester, and students will be given a key to download the full program for use in study at home. You will make use of other data analytics software as needed. You may decide to use any tools that you find most appropriate for the task and your confidence & skill levels.

Important note

Our *iLab* system is not compatible with our **Tableau®** Teaching License, so we cannot install **Tableau®** in the labs. Similarly, the *iLab* system is unlikely to have up-to-date versions of **R**, **Python**, **Orange**, or **RapidMiner**. Students are strongly encouraged to bring laptop computers to the seminar/workshops.

Unit Web Page

Course material is available on the learning management system (**iLearn**). The general online website is <http://ilearn.mq.edu.au>

Unit Schedule

We are still learning about the expectations of the profession and industry, and the capabilities and interests of our students, so we may make small changes to the timing and attention to different topics as the unit progresses.

Tentative Schedule of Weekly Topics

- Week 1 | (27 July-31 July) | Welcome & Introduction
- Week 2 | (3-7 August) | Decision Making Soft Skills & Hard Skills
- Week 3 | (10-14 August) Business Analytics Project Framework
- Week 4 | (17-21 August) Case Study / Guest Speaker
- Week 5 | (24-28 August) Case Study/ Guest Speaker; Preparation for Client Report
- Week 6 | (31 August - 3 September) Market Study
- Week 7 | (7-11 September) Ethics in Business Analytics
- Week 8 | (28 September - 2 October) Case Study / Guest Speaker
- Week 9 | (5-9 October) Case Study / Guest Speaker; Feedback on Client Report
- Week 10 | (12-16 October) Case Study / Guest Speaker
- Week 11 | (19-23 October) Business Analytics Career Planning
- Week 12 | (26-30 October) Feedback on Group Report & Presentation
- Week 13 | (2-6 November) Group Presentation

Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central](https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central) (<https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central>). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- [Academic Appeals Policy](#)
- [Academic Integrity Policy](#)
- [Academic Progression Policy](#)
- [Assessment Policy](#)
- [Fitness to Practice Procedure](#)
- [Grade Appeal Policy](#)
- [Complaint Management Procedure for Students and Members of the Public](#)
- [Special Consideration Policy](#) (**Note:** *The Special Consideration Policy is effective from 4 December 2017 and replaces the Disruption to Studies Policy.*)

Students seeking more policy resources can visit the [Student Policy Gateway](https://students.mq.edu.au/support/study/student-policy-gateway) (<https://students.mq.edu.au/support/study/student-policy-gateway>). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

If you would like to see all the policies relevant to Learning and Teaching visit [Policy Central](https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central) (<https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central>).

Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: <https://students.mq.edu.au/study/getting-started/student-conduct>

Results

Results published on platform other than [eStudent](#), (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in [eStudent](#). For more information visit ask.mq.edu.au or if you are a Global MBA student contact globalmba.support@mq.edu.au

Student Support

Macquarie University provides a range of support services for students. For details, visit <http://students.mq.edu.au/support/>

Learning Skills

Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to help you improve your marks and take control of your study.

- [Getting help with your assignment](#)
- [Workshops](#)
- [StudyWise](#)
- [Academic Integrity Module](#)

The Library provides online and face to face support to help you find and use relevant information resources.

- [Subject and Research Guides](#)
- [Ask a Librarian](#)

Student Services and Support

Students with a disability are encouraged to contact the [Disability Service](#) who can provide appropriate help with any issues that arise during their studies.

Student Enquiries

For all student enquiries, visit Student Connect at ask.mq.edu.au

If you are a Global MBA student contact globalmba.support@mq.edu.au

IT Help

For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University's IT, you must adhere to the [Acceptable Use of IT Resources Policy](#). The policy applies to all who connect to the MQ network including students.
