#### **Disclaimer**

Macquarie University has taken all reasonable measures to ensure the information in this publication is accurate and up-to-date. However, the information may change or become out-dated as a result of change in University policies, procedures or rules. The University reserves the right to make changes to any information in this publication without notice. Users of this publication are advised to check the website version of this publication [or the relevant faculty or department] before acting on any information in this publication.

#### **Notice**

As part of [Phase 3 of our return to campus plan](#), most units will now run tutorials, seminars and other small group learning activities on campus for the second half-year, while keeping an online version available for those students unable to return or those who choose to continue their studies online.

To check the availability of face-to-face and online activities for your unit, please go to [timetable viewer](#). To check detailed information on unit assessments visit your unit's iLearn space or consult your unit convenor.

## General Information

Unit convenor and teaching staff

Greg Walkerden

Prerequisites

Admission to MEnv or MEnvEd or MEnvMgt or MEnvStud or MEnvPlan or MPlan or GradCertEnvPlan or MWldMgt or MPPP or MMarScMgt or MEnvLaw or GradDipEnv or MSusDev or GradCertSusDev or GradDipSusDev or GradCertSIA or GradDipSIA or MConsBiol or GradDipConsBiol or MDevStud or MPASRMDevStud or MPPPMDDevStud or MSc in (Biodiversity Conversation or Remote Sensing and GIS or Environmental Health)

Corequisites

Co-badged status

Unit description

Environmental impact assessment (EIA) is a central decision making process in many planning systems, and it sets the agenda for ongoing environmental management of major developments. This unit will enhance student's understanding of how EIA is carried out in Australia and internationally. The focus is on the preparation and evaluation of environmental impact assessment statements, and on the design and performance of EIA systems, in the context of strategic environmental assessments. Environmental impact statements prepared for the New South Wales context, as well as for other jurisdictions in Australia and some overseas countries, will be examined. Platform skills such as systems thinking and negotiation are emphasised.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

**ULO1:** Evaluate, and propose improvements to, the design of EIA systems for major projects

**ULO2:** Apply skills in stakeholder analysis, negotiation, and project presentation in EIA

**ULO3:** Scope environmental impacts using skills in socio-ecological systems analysis

**ULO4:** Apply skills in project management and management system design in EIA

**ULO5:** Critically evaluate Environmental Impact Statements from the perspective of sustainable development

**ULO6:** Analyse the sustainable development implications of EIA processes adopted in different nations

## General Assessment Information

### Assessment Standards

Many specific aspects of your work are important (as identified in the following standards), but it is the overall quality of the completed work that is important. Assignments will be assessed holistically. The following bands are 'ideal types': lists of the features of typical examples of assignments at each level. The standard of each assignment is obviously important - good grades demonstrate that your work is competent, proficient or excellent. But from a learning perspective, it is equally important to look at your own work developmentally: to look for gradual improvement, deepening insight, and broadening competency. Grades for assignments assess the standard of your work. Comments on assignments are intended to be helpful developmentally: indicating what you have achieved, and how you could improve your work.

#### For a grade of High Distinction (>= 85%)

- use and synthesis of a variety of high quality sources not mentioned in class or on reading lists;
- considered use of dictionary and technical terms, diagrams and/or other sources to define and set the topic in context;
- incisive and decisive specification of the key issues;
- prioritisation and exposition of the key issues in a clear and logical sequence;
- relevant contrary arguments are identified and effectively dealt with;
- discussion forms a sound basis for clear, justified and comprehensive recommendations and conclusions;
- independence of thought and obvious originality;
- demonstrated ability to weigh arguments and form clear, considered personal viewpoints;
- proficient use of the English language;
- references presented at 'publishable' standard.

Overall, your work demonstrates, in an interesting or challenging way, originality based on proficiency in all the learning objectives.

#### For a grade of Distinction (75-84%)

- use and synthesis of some high quality sources not mentioned in class or on reading lists, and reference to some others;
- adequate use of dictionary and technical terms, diagrams and/or other sources to define and set the topic in context;
- clear specification of the key issues;
- key issues generally presented in a logical sequence;
- relevant contrary arguments raised but might not be fully resolved;
- discussion leads to clear and justified recommendations and conclusions;
- independence of thought and significant originality;
- general ability to weigh arguments and form personal viewpoints;
- clear use of the English language;
- references largely error free.

Overall, your work demonstrates a comprehensive awareness and understanding of the topic of the assignment.

**For a grade of Credit (65-74%)**

- use and synthesis of some high quality sources, and reference to some additional good quality material;
- use of dictionary and technical terms to define and contextualise the topic;
- overall awareness of the key issues;
- the selected key issues generally presented in a logical sequence;
- some contrary arguments raised with inadequate appreciation of their significance;
- a clear statement of conclusions and recommendations;
- some independent thought but limited originality;
- difficulties in weighing arguments and presenting personal viewpoints;
- sometimes proficient and always passable use of the English language;
- some errors of omission or detail in presentation of references.

Overall, your work demonstrates the ability to use and apply fundamental concepts and skills.

**For a grade of Pass (50-64%)**

- limited use and synthesis of good quality sources;
- use of dictionary or vernacular definitions in an attempt to identify and set the topic in context;
- some awareness of the key issues;
- some attempt to order the argument, but flaws in logical discipline;
- few contrary arguments raised and little appreciation of their significance or resolution;

- a generally clear statement of conclusions and recommendations;
- little independent thought and minimal originality;
- little weighing of argument and lack of clarity in personal viewpoints;
- passable use of the English language;
- some errors of omission or detail in presentation of references.

Overall, your work satisfies the basic learning requirements of the assignment.

#### **For a lower grade of Fail (26-49%)**

- lack of awareness of sources or what the question is about;
- confused definitions;
- general inability to identify the key issues;
- inability to order the argument;
- few, if any, contrary arguments raised and no appreciation of their significance or resolution;
- inadequate statement of conclusions or recommendations;
- no independent thought or originality;
- no ability to weigh arguments or form personal viewpoints.

#### **For a grade of Serious Fail (< 26%)**

- no reference to suggested sources, generally inappropriate use of materials;
- no attempt at definitions;
- no awareness of key issues, such that the paper fails to address or answer the question;
- arguments unformulated, many errors, unsupported assertions, unjustified generalisations;
- contrary arguments impugned or ignored;
- inconclusive outcome to the paper;
- no independent thought, any originality likely to be illogical;
- inability to weigh arguments, personal viewpoints absent or inadequate.

See also: Neil DT, Wadley DA, and Phinn SR 1998, *Assessment Guidelines*, School of Geography, Planning and Environmental Management, The University of Queensland. Used with permission. This text is a very minor adaptation of an excerpt from Neil, Wadley and Phinn (1998). See the full text in either version for further very useful background on these standards, and the criteria they reflect.

## **Academic Honesty**

It is a fundamental principle that all staff and students act with integrity in the creation,

development, application and use of ideas and information. This means that:

- all academic work claimed as original is the work of the author making the claim
- all academic collaborations are acknowledged
- academic work is not falsified in any way
- when the ideas of others are used, these ideas are acknowledged appropriately.

All students should familiarise themselves with [Macquarie University's Academic Honesty Policy](#). The Department recommends that students familiarise themselves with the explanation of plagiarism on the [Georgetown University Honor Council website](#) which discusses plagiarism in an easy to understand and comprehensive manner.

If you are struggling to complete an assignment, please [contact the Unit Convenor](#), or make a Special Consideration request via [ask.mq.edu.au](mailto:ask.mq.edu.au).

## Word Counts

References are not included in the word counts set for each assignment. A tolerance of plus or minus 10% is allowed for, on the set lengths. So for example, a 1,000 word essay could be anywhere from 900 to 1,100 words long. If you submit assignments that are shorter or longer than this, you may be penalised for length.

## Submission of Assignments

Write assignments are to be [submitted electronically via iLearn](#) before midnight on the due date. *Written assignments will be reviewed by Turnitin, which helps us check whether sources are properly acknowledged, and whether assignments submitted are each student's own work.*

## Extensions & Late submissions

**To request an extension, make a request for Special Consideration** through [ask.mq.edu.au](mailto:ask.mq.edu.au), providing a clear explanation and providing supporting documentation where needed (e.g. a Macquarie Professional Authority form). **Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – two (2) marks out of 100 will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted more than seven (7) days (incl. weekends) after the original submission deadline.** Please plan your work for your units at the start of the Session, and keep track of how much time you have available for each assignment. Please get help if you are having trouble completing work on time. Visit a doctor, a Campus Wellbeing service (<https://students.mq.edu.au/support/wellbeing>), talk to the Unit Convenor for academic help, or whatever else is appropriate.

## Assessment Tasks

Name	Weighting	Hurdle	Due
<a href="#">EIA System Review Outline</a>	5%	No	11:59 pm, Monday 24th August

Name	Weighting	Hurdle	Due
<a href="#">EIA System Review</a>	35%	No	11:59 pm, Sunday 13th September
<a href="#">Review of an EIS</a>	60%	No	11:59 pm, Monday 5th October

## EIA System Review Outline

Assessment Type **1**: Plan

Indicative Time on Task **2**: 10 hours

Due: **11:59 pm, Monday 24th August**

Weighting: **5%**

Provide a brief outline, using section headings and dot points, that outlines your preliminary analysis of the strengths and weaknesses of the EIA system you are assessing. 300 words.

On successful completion you will be able to:

- Evaluate, and propose improvements to, the design of EIA systems for major projects
- Apply skills in project management and management system design in EIA
- Analyse the sustainable development implications of EIA processes adopted in different nations

## EIA System Review

Assessment Type **1**: Report

Indicative Time on Task **2**: 30 hours

Due: **11:59 pm, Sunday 13th September**

Weighting: **35%**

Critical assessment of an EIA System for major projects, identifying its strengths and weaknesses, from the perspectives of socio-ecological dynamics and stakeholder interests, considering both (i) the EIA system design and (ii) how it operates in practice. 1,700 words.

On successful completion you will be able to:

- Evaluate, and propose improvements to, the design of EIA systems for major projects
- Scope environmental impacts using skills in socio-ecological systems analysis
- Analyse the sustainable development implications of EIA processes adopted in different nations

## Review of an EIS

Assessment Type **1**: Project

Indicative Time on Task **2**: 55 hours

Due: **11:59 pm, Monday 5th October**

Weighting: **60%**

Project teams will be assigned an Environmental Impact Statement (EIS) for a major project, policy or program. Each team will divide the assessment of the EIS into a number of parts. Each team member will prepare a 2,000 word objective and independent assessment of the part of the EIS allocated to them. Project teams will then debate whether the major project, policy or program should be approved or rejected.

On successful completion you will be able to:

- Evaluate, and propose improvements to, the design of EIA systems for major projects
- Apply skills in stakeholder analysis, negotiation, and project presentation in EIA
- Scope environmental impacts using skills in socio-ecological systems analysis
- Apply skills in project management and management system design in EIA
- Critically evaluate Environmental Impact Statements from the perspective of sustainable development

---

<sup>1</sup> If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

<sup>2</sup> Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

## Delivery and Resources

### Learning and teaching processes

The main elements of teaching are:

- key information is laid out in lecture segments;
- guest lecturers introduce aspects of professional practice;
- workshop sessions provide opportunities for experiential learning;
- assignments that provide opportunities to develop and demonstrate that you have met the Unit Learning Outcomes.

Covid-19 is creating an unusual level of uncertainty over the details of how the unit will be delivered, and it may be that changes will be forced by future outbreaks in Sydney. As a result, it will be essential that you pay close attention to instructions about how to complete the unit on its iLearn site (<https://ilearn.mq.edu.au>).

Some teaching will be in the form of lecture material, readings, and exercises to be done online in your own time (asynchronous teaching), and some will be face to face, either via Zoom (links

will be provided on iLearn) or on campus (synchronous teaching). Currently we expecting small group work to happen on campus, and large group work to happen on online, but that may change. It will be important to complete the asynchronous work before the sessions where are all working together.

## Technology used and required

Students need access to a computer and basic office software (eg. Microsoft Office or OpenOffice), and course web pages to complete assessment tasks.

## Using the iLearn site

The Unit's iLearn site (available via <https://ilearn.mq.edu.au>) is fundamental to delivery of the Unit.

## Using the research literature

Citing peer reviewed research is essential for all assignments. Access peer reviewed journal articles [through the University Library's website; use MultiSearch](#). Google Scholar is an excellent starting point. If you are off-campus, [accessing Google Scholar from the university library's home page](#) (see link below the Search box) will make it easier to get to journal articles.

The following databases of journal articles accessible through the University Library are also particularly recommended:

- Academic Search Premier
- JSTOR
- Scopus
- Web of Knowledge
- Web of Science.

The library has also put together [helpful research guides for many disciplines](#) relevant to this unit. See the Unit's iLearn pages for further information.

## Unit Schedule

See the unit's iLearn site (<https://ilearn.mq.edu.au>) for details of the Schedule.

When run on campus, Environmental Impact Assessment is run over five full days. In 2020 the timetabled days are:

**Saturday 1st August:** History & Context

**Saturday 22nd August:** Receiving ecosystems case study

**Friday 11th September:** Built environment case study

**Saturday 3rd October:** Reforming EIA

**Saturday 24th October:** Environmental Impact Statement Debates

In this mode, each session runs from **9:30 am to 5:00 pm**.

Please refer to the iLearn site to find out how this schedule is being adapted to manage the risks of Covid-19.

## Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central \(https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central\)](https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- [Academic Appeals Policy](#)
- [Academic Integrity Policy](#)
- [Academic Progression Policy](#)
- [Assessment Policy](#)
- [Fitness to Practice Procedure](#)
- [Grade Appeal Policy](#)
- [Complaint Management Procedure for Students and Members of the Public](#)
- [Special Consideration Policy](#) (**Note:** *The Special Consideration Policy is effective from 4 December 2017 and replaces the Disruption to Studies Policy.*)

Students seeking more policy resources can visit the [Student Policy Gateway \(https://students.mq.edu.au/support/study/student-policy-gateway\)](https://students.mq.edu.au/support/study/student-policy-gateway). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

If you would like to see all the policies relevant to Learning and Teaching visit [Policy Central \(https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central\)](https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central).

## Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: <https://students.mq.edu.au/study/getting-started/student-conduct>

## Results

Results published on platform other than [eStudent](#), (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in [eStudent](#). For more information visit [ask.mq.edu.au](http://ask.mq.edu.au) or if you are a Global MBA student contact [globalmba.support@mq.edu.au](mailto:globalmba.support@mq.edu.au)

## Student Support

Macquarie University provides a range of support services for students. For details, visit <http://students.mq.edu.au/support/>

## Learning Skills

Learning Skills ([mq.edu.au/learningskills](http://mq.edu.au/learningskills)) provides academic writing resources and study

strategies to help you improve your marks and take control of your study.

- [Getting help with your assignment](#)
- [Workshops](#)
- [StudyWise](#)
- [Academic Integrity Module](#)

The Library provides online and face to face support to help you find and use relevant information resources.

- [Subject and Research Guides](#)
- [Ask a Librarian](#)

## Student Services and Support

Students with a disability are encouraged to contact the [Disability Service](#) who can provide appropriate help with any issues that arise during their studies.

## Student Enquiries

For all student enquiries, visit Student Connect at [ask.mq.edu.au](http://ask.mq.edu.au)

If you are a Global MBA student contact [globalmba.support@mq.edu.au](mailto:globalmba.support@mq.edu.au)

## IT Help

For help with University computer systems and technology, visit [http://www.mq.edu.au/about\\_us/offices\\_and\\_units/information\\_technology/help/](http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/).

When using the University's IT, you must adhere to the [Acceptable Use of IT Resources Policy](#). The policy applies to all who connect to the MQ network including students.
