### Unit description

Climate change is the outstanding environmental issue of our time. This is a specialised unit that analyses law and policy relevant to managing the problems presented by climate change. Both the causes and impacts of climate change are pervasive and present significant challenges to conventional legal approaches. The unit investigates the role of law in driving society's response from the international law level through the United Nations Framework Convention on Climate Change and Paris Agreement, to federal and state responses in terms of both legislation and judicial decisions to local scale actions. At each jurisdictional level, focus is given to law that relates to the major pillars of climate policy – mitigation, adaptation and loss and damage.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

**ULO1:** Demonstrate an understanding of the fundamental bio-physical concepts of climate change, including its causes and impacts in the Anthropocene epoch, as a basis for understanding of the climate law framework

**ULO2:** Identify and examine the challenges of managing environmental change in a context of uncertainty and how scientific information is translated into law

**ULO3:** Critically analyse the development of climate legislation and climate litigation in Australia and overseas in order to express analytical and substantiated views about the effectiveness of the legal framework and use of litigation as a tool to assist with improved climate governance.

**ULO4:** Critically analyse the history, current operation and future growth of the international climate law regime, recognizing the different perspectives of relevant groups of nation states from both the Global North and Global South

**ULO5:** Evaluate perspectives from disciplines outside law in order to understand how to approach climate law problem-solving from a multi-disciplinary perspective

## General Assessment Information

**Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – two (2) marks out of 100 will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted more than seven (7) days (incl. weekends) after the original submission deadline. No late submissions will be accepted for timed assessments.**

Detailed marking rubrics will be made available on iLearn.

All assessments that receive a FAIL grade are double marked.

All assessments in the Unit are to be submitted electronically (via Turnitin). Plagiarism detection software is used in this Unit.

Where there is a word limit no work over the limit will be read by the marker.

Law students - All written work must (where relevant) be referenced in accordance with the ***Australian Guide to Legal Citation (4th edition)***. Please use this link: <https://law.unimelb.edu.au/mulr/aglc>

<sup>1</sup> If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

<sup>2</sup> Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

## **Delivery and Resources**

The unit will be taught as both an External unit and as an Internal unit. Participation in tutorials whether face to face or online and On Campus Session (OCS) or alternative arrangements for external students is highly recommended as it links to the effective completion of assessment tasks.

### **Delivery**

It is critical that students have consistent access to a reliable internet connection.

This unit heavily utilizes iLearn for all communication purposes. Announcements, lecture recordings, assessments etc. all operate upon the iLearn platform. It is therefore vital that students familiarize themselves with the iLearn platform and its operations if they haven't done so previously.

Students should regularly check the unit web page on iLearn to keep up with information for students entered by the Unit Convenor. There may be information placed on the web page at short notice concerning attendance, cancelled or postponed classes and relevant assessment items and dates. Attending on the right dates is your responsibility and mistakes with attendance may result in your failing of the unit.

Further, iLearn is utilised for the purposes of discussion forums, both teacher led and those that are exclusively for the use of students. It is highly recommended that students keep up to date with forum discussion as it features topical news items relevant to the course etc.

All communication with academic staff in this unit is to be conducted via iLearn.

### **Resources**

There is no prescribed textbook for this course in 2020. The materials will consist of articles (peer reviewed and non-peer reviewed), book chapters, cases, legal instruments and other publications.

This will be detailed in a List of Readings published on iLearn in the week prior to the commencement of Session 2, 2020.

Some key chapters of the textbook used in previous years will be listed. Copies will be placed on reserve in the Library.

NB: A weekly lecture guide and tutorial questions will be supplied in a separate document posted on the iLearn website.
