Unit description

This unit builds practical skills to mix music for a live audience. Lectures and production lab workshops develop the techniques necessary for DJ-ing and laptop performance. The broad objective is to develop students' awareness of mixing techniques in the live performance of electronic music, to develop creative skills in constructing studio-based DJ sets, and to collaborate creatively with colleagues. Students are introduced to Ableton Live software as a tool for laptop performance and production. This unit caters to a variety of skill levels with both beginning and advanced students welcome.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>
