Unit description

Ever wanted to know what it is like to be on the radio? This unit, in collaboration with 2SER radio station, provides that opportunity. Students' to gain experience and knowledge of radio through live broadcast situations and professional roles. This connects students to the latest developments in radio, podcast and audio programming.

Workshops incorporate techniques of devising live to air program material: location recordings, interviews, voice segments, entertainment, promotion and feature packages. A live magazine style program for 2SER is one outcome, extending students' team and presentation skills, while consolidating the critical, research and production expertise required to produce an extended program of this genre.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

**ULO1:** apply a range of communication and expression skills for electronic audio media productions.

**ULO2:** demonstrate journalistic and program making craft skills related to audio/radio productions.

**ULO3:** analyse the dynamics and methods necessary for successful communication with audiences and listeners.

**ULO4:** apply and communicate specialist skills to creative and collaborative roles in radio program production, broadcast audio media journalism, and presentation of collaboratively devised projects.

**ULO5:** apply and consolidate a range of technical and operational skills in radio broadcast and related audio media productions.

**ULO6:** reflect on practice and theory.

## Delivery and Resources

### DELIVERY METHODS

This unit uses lectures and workshop/tutorials.

**Please Note: Lectures and tutorials/workshops commence in week 1. Please attend all classes.** There are a two public holidays that impact on our classes. Please check the unit schedule for more detail.

Technical assistance and demonstrations are given in tutorial/workshops and students need to be able to attend these throughout the semester. The Radio Facilities Manager, Peter Ring, will be assisting with this instruction.

It is a requirement that an appropriate number of radio/audio programs be included as sources in scholarly reflections for all of the assessments and referenced accordingly in reference

lists. These programs will form part of lectures and workshops, or be suggested for self-directed listening. Thus you should aim not to miss lectures or workshops. Please inform the tutor/lecturer if you cannot attend for any reason.

There are two hour weekly tutorial and/or technical workshop sessions. You are required to attend all tutorials and workshops. As participation in the process of learning is linked to and underpins the unit Learning Outcomes, you will need to either apply for Disruptions to Studies to cover any missed tutorial/workshop (if the disruption is greater than three consecutive days) or supply appropriate documentation to your unit convenor for any missed tutorial/workshop (if less than three consecutive days).

iLearn is a major component of this unit. Please refer to iLearn on a weekly basis and undertake the readings and activities and participate in discussions. It is very important to check announcements on iLearn regularly. If there are any changes to assessments, notifications will be made via iLearn "announcements" so it is the responsibility of every student to keep themselves informed.

## **REQUIRED EQUIPMENT**

You will be required to purchase:

- 1) One set of good quality closed or semi-closed headphones (for hygiene reasons these are compulsory for each student). You will have these if you already completed MMCC2160.
- 2) At least one portable memory device to use to transfer audio projects.

## **REQUIRED READING**

A selection of readings and listenings are detailed on iLearn.

Readings/listenings are accessed via Leganto <http://libguides.mq.edu.au/leganto>

**NOTE that you MUST access Leganto via the block in iLearn in the first instance.** This is how the system verifies you as a student in this unit.

There are some other recommended readings. Students should draw on at least two sources for their written reflections, required in the documentation portion of the assessments.
