Unit description

This unit focuses on general principles of research and the use of research methods in language studies. It covers the whole process of research from choosing a topic, searching the related literature on the topic, and formulating research questions, to collecting and analysing data and writing up research reports. The exploration of quantitative, qualitative, and mixed-method research methodologies develops students' research literacy to understand research reports and to design research projects. Research ethics and conducting and writing up a small-scale research project are two other components of this unit.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Identify and communicate a research topic to a professional audience

ULO2: Critically review and synthesise published literature related to the topic of your proposed research and communicate with a professional audience

ULO3: Explain the basic underlying principles of three research approaches

(quantitative, qualitative, and mixed-methods)

ULO4: Conceive and formulate research questions/hypotheses relating to language study and language learning

ULO5: Creatively design, implement, and report a small-scale study to answer your research questions

General Assessment Information

Late submission

- If assignments are submitted after the due date without an approved extension, they are deemed late. Late submissions will receive a 5% per day penalty and will not be marked if more than 2 weeks late.
- All assignments submitted after the deadline, regardless of the reason, will be marked and returned at a date determined by the unit convenor.
- Extensions cannot continue beyond the start of the following semester, and students should be aware that long extensions may impact graduation dates.
- Extensions will only be given in special circumstances and can be requested by completing the Special Consideration request at ask.mq.edu.au and providing the required supporting documentation.

For more information on Special Consideration, see the university website <https://students.mq.edu.au/study/my-study-program/special-consideration>
