Unit description

This unit will explore what language is and how it develops in early childhood from birth to eight years of age. The relationship between language, learning and culture will be investigated. Students will consider different definitions of literacy and examine how oral language in the early years of life relates to subsequent knowledge of written, visual and aural texts. Issues to be addressed include how to create a language and literacy rich environment and the central role of adults in supporting children's language and literacy development in a range of contexts. All enrolment queries should be directed to Open Universities Australia (OUA): see [www.open.edu.au](http://www.open.edu.au)

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

**ULO1:** Use appropriate metalanguage when analysing language structure and function.

**ULO2:** Apply knowledge of the relationship between oral language, adult–child interaction and literacy development.

**ULO3:** Critically evaluate early childhood settings in terms of language and literacy development.

**ULO4:** Employ and develop pedagogical strategies for promoting language and literacy development.

**ULO5:** Use peer reviewed research to justify decision making.

**ULO6:** Use academic language appropriately to express ideas and arguments.

## General Assessment Information

### Full assignment instructions

This Unit Guide provides a brief description only of each required assessment piece. Full instructions are provided via the 'unit essentials', which will be available on the iLearn site from Day1 of Session 2.

### Assignment expectations

In order to achieve a passing grade, it is expected that **all** assignments are completed, and that all assignments demonstrate a serious attempt to address the assignment task.

### Assessment Presentation & Submission Guidelines

**Please follow these guidelines when you submit each assignment:**

- Allow a left and right-hand margin of at least 2cm in all assignments.
- Please type all assignments using 12-point font and 1.5 spacing.
- All assessments must be submitted through Turnitin in .doc or .pdf format
- It is the onus of the student to ensure that all assessments are successfully submitted through Turnitin.
- Faculty assignment cover sheets are NOT required.

### Draft Submissions & Turnitin Originality Reports

- Students may use Turnitin's Originality Report as a learning tool to improve their academic writing if this option is made available in the unit.

- Students are strongly encouraged to upload a draft copy of each assessment to Turnitin at least one week prior to the due date to obtain an Originality Report.
- The Originality Report provides students with a similarity index that may indicate if plagiarism has occurred. Students will be able to make amendments to their drafts prior to their final submission on the due date.
- Generally, one Originality Report is generated every 24 hours up to the due date.

**Please note:**

- Students should regularly save a copy of all assignments before submission.
- Unless there are exceptional circumstances, no assessment will be accepted after the date that the assessment has been returned to other students.
- Students are responsible for checking that their submission has been successful and has been submitted by the due date and time.

## Assignment extensions and late penalties

- In general, there should be no need for extensions except through illness or misadventure that would be categorised as unavoidable disruption according to the University definition of same, see: <https://students.mq.edu.au/study/my-study-program/special-consideration>
- Applications for extensions must be made via AskMQ at <https://ask.mq.edu.au> as a Special Consideration request before the submission date. Students who experience a disruption to their studies through ill-health or misadventure are able to apply for this request. Extensions can only be granted if they meet the Special Considerations policy and are submitted via <https://ask.mq.edu.au/>. This will ensure consistency in the consideration of such requests is maintained.
- Late submissions: Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – two (2) marks out of 100 will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted more than seven (7) days (incl. weekends) after the original submission deadline. No late submissions will be accepted for timed assessments – e.g. quizzes, online tests. Late penalties are applied by unit convenors or their delegates after tasks are assessed.
- If a student is still permitted to submit on the basis of unavoidable disruption, an alternative topic may be set.
- Students should keep an electronic file of all assessments. Claims regarding "lost"

assessments cannot be made if the file cannot be produced. It is also advisable to keep an electronic file of all drafts and the final submission on a USB untouched/unopened after submission. This can be used to demonstrate easily that the assessment has not been amended after the submission date.

## Requesting a re-assessment of an assignment

If you have **evidence** that your task has been incorrectly assessed against the grade descriptors you can request a re-mark. To request a re-mark you need to contact the unit convenor within **7 days** of the date of return of the assignment and provide **a detailed assessment of your script against the task criteria**. Evidence from your assignment must be provided to support your judgements.

Note: Failed assessments can not be re-submitted as they are all double-marked as a part of the moderation process.

Please note: The outcome of a re-mark may be a **higher/lower or unchanged grade**. Grades are *standards referenced* and effort is NOT a criterion.

## University policy on grading

### Criteria for awarding grades for assessment tasks

Assignments will be awarded grades ranging from HD to F according to guidelines set out in the University's Grading Policy. The following descriptive criteria are included for your information.

### Descriptive Criteria for awarding grades in the unit

In order to meet the unit outcomes and successfully pass this unit, students must make a genuine attempt at all assessment tasks. Where any submitted assessment task is considered to be unsatisfactory in this regard, the highest possible final grade that can be awarded for the unit will be 45.

Students will be awarded grades ranging from HD to F according to guidelines set out in the policy: <https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policies/assessment-in-effect-from-session-2-2016>

The following generic grade descriptors provide university-wide standards for awarding final grades.

Grade	Descriptor
HD (High Distinction)	Provides consistent evidence of deep and critical understanding in relation to the learning outcomes. There is substantial originality and insight in identifying, generating and communicating competing arguments, perspectives or problem solving approaches; critical evaluation of problems, their solutions and their implications; creativity in application as appropriate to the discipline.

<p><b>D</b> (Distinction)</p>	<p>Provides evidence of integration and evaluation of critical ideas, principles and theories, distinctive insight and ability in applying relevant skills and concepts in relation to learning outcomes. <p><b>Cr</b> (Credit)</p>	<p>Provides evidence of learning that goes beyond replication of content knowledge or skills relevant to the learning outcomes. <p><b>P</b> (Pass).</p>	<p>Provides sufficient evidence of the achievement of learning outcomes. There is demonstration of understanding and application of fundamental concepts of the field of study; routine argumentation with acceptable justification; communication of information and ideas adequately in terms of the conventions of the discipline. The learning attainment is considered satisfactory or adequate or competent or capable in relation to the specified outcomes</p>
<p><b>F</b> (Fail)</p>	<p>Does not provide evidence of attainment of learning outcomes. There is missing or partial or superficial or faulty understanding and application of the fundamental concepts in the field of study; missing, undeveloped, inappropriate or confusing argumentation; incomplete, confusing or lacking communication of ideas in ways that give little attention to the conventions of the discipline.</p>

## Academic Honesty Guidelines

All assignments should comply with the university's [Academic Integrity Policy](#) and [Academic Integrity Values](#). Every assignment should cite and provide full bibliographical details of all material that you have used to inform or support your ideas. Details about how to cite and reference correctly can be found on the [university's library website](https://libguides.mq.edu.au/Referencing) at <https://libguides.mq.edu.au/Referencing>. At the Macquarie School of Education, students are required to use the American Psychological Association (APA) referencing procedures: <https://libguides.mq.edu.au/referencing/APA7thEdition>

## Units with Submissions of Family & Children's Records

### Family and Children's Records

Some assessment tasks require students to submit records about families and about children and their learning. It is expected that the records submitted are original, authentic, adheres to ethical practices and is the work of the student. Issues with the authenticity of such records will be investigated for possible forgery. Please note that submitted records can only be used once for assessment purposes.

### Confidentiality

Students must respect the need for sensitivity and confidentiality and ensure that privacy obligations are met. There should be nothing in assessment submissions that identifies a centre or school. Use only the first name for children, families and staff. Do not record details that enable identification of the site, and of the adults or children.

## Delivery and Resources

### Student workload and requirements

Before commencing this unit, please ensure that you can meet all requirements, including workload requirements, attendance expectations (if relevant to your mode of enrolment), and assessment submission requirements.

Credit points indicate the approximate hours that a student is expected to spend studying in order to pass a unit. One credit point equals 15 hours; thus, students are expected to spend approximately 10 hours per week (including the two weeks of mid-session recess) studying this unit (i.e. approximately 150hr). Study includes viewing all lectures, participating in tutorials and learning activities, completing set readings and background readings, completing assignments, and using the unit's iLearn site.

Independent study is strongly encouraged in this unit as is participation in online discussions and the completion of study tasks posted on iLearn.

*Please ensure that you have sufficient time to dedicate to your studies before attempting this unit. We are sympathetic that students often have significant domestic and work-related responsibilities.
