Unit description

This unit aims to equip you with skills to communicate academic research effectively, and with a heightened appreciation of the relationship between research communications and disciplinary knowledge creation. You will analyse, critique and practise academic communication conventions from different research genres in a variety of modes (written, oral and visual), across disciplines. You will develop communication skills to present a clear and coherent exposition of research concepts to a variety of audiences.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Demonstrate a range of communication styles required as an active academic research professional

ULO2: Effectively utilise written, oral, and visual communications to disseminate research.

ULO3: Explain the structure and style of various types of research communications.

ULO4: Identify different approaches taken to present your data and communicate your research.

General Assessment Information

Grade descriptors and other information concerning grading are contained in Schedule 1 of the Macquarie University Assessment Policy, which is available at: https://staff.mq.edu.au/work/strat egy-planning-and-governance/university-policies-and-procedures/policies/assessment.

Further details for each assessment task will be available on iLearn.

All final grades in the Masters of Research are determined by a grading committee and are not the sole responsibility of the Unit Convenor.

Students will be awarded a final grade plus a Standardised Numerical Grade (SNG). The SNG is not necessarily a summation of the individual assessment components. The final grade and SNG that are awarded reflect the corresponding grade descriptor in the Grading Policy.

To pass this unit, students must demonstrate sufficient evidence of achievement of the learning outcomes, attempt all assessment tasks, meet any ungraded requirements including professionalism and achieve an SNG of 50 or better.

Student Professionalism

In the Faculty of Medicine, Health, and Human Sciences, professionalism is a key capability embedded in all our courses. As part of developing professionalism, students are expected to attend all small group interactive sessions including tutorials, as well as complete online and laboratory-based practical sessions.

Furthermore, lectures and seminars are key learning activities that you are expected to attend throughout the Master of Research program. While audio recordings and lecture slides may be made available following these large group sessions, it is important to recognise that such resources are a study aid - and should not be considered an alternative to lecture or seminar attendance.

Students who do not maintain adequate attendance (greater than or equal to 80% of scheduled classes) may be deemed unable to meet expectations regarding professionalism and may be referred for disciplinary action (which may include exclusion from assessments and unit failure).

Similarly, as part of developing professionalism, students are expected to submit all work by the due date. Applications for assessment task extensions must be supported by appropriate evidence and submitted via ask.mq.edu.au. For further details please refer to the Special Consideration Policy available at https://students.mq.edu.au/study/my-study-program/special-con sideration

Submission of assignments

All written assignments are to be submitted in Turnitin. The marking rubric is contained within the Turnitin submission system. Instructions on submitting assignments and how to access marks and feedback through Turnitin are available through this link: Turnitin.

Late Submission

All assignments that are officially received after the due date, and where no extension or special

consideration has been granted, will incur a deduction of 5% per day, including weekends and public holidays and the actual day received. This will continue up until 10 days after due date, after which the assignment will not be accepted. For example:

Due date	Received	Days late	Deduction	Raw mark	Final mark
Friday 14 th	Monday 17 th	3	15%	75%	60%

Assessment Tasks

Name	Weighting	Hurdle	Due
Protocol for Systematic Review	15%	No	Week 9

- Identify different approaches taken to present your data and communicate your research.

¹ If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the Writing Centre for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment

task and is subject to individual variation

Delivery and Resources

Due to the COVID19 pandemic, this unit will be delivered asynchronous and online in session 2, 2020. Some sessions may be scheduled during the session for group or individual feedback via Zoom.

Technology Used

Completion of online training and learning activities throughout the unit will require students to have access to a tablet, laptop or similar device. Students who do not own their own laptop computer may borrow one from the university library. Students will require access to a network-linked device that will allow writing/editing of written content, graphic development, PoiwerPoint, and video/sound capture to be able to complete this unit of study.

Policies and Procedures

Macquarie University policies and procedures are accessible from Policy Central (https://staff.m q.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-centr al).
