Notice

As part of [Phase 3 of our return to campus plan](#), most units will now run tutorials, seminars and other small group learning activities on campus for the second half-year, while keeping an online version available for those students unable to return or those who choose to continue their studies online.

To check the availability of face-to-face and online activities for your unit, please go to [timetable viewer](#). To check detailed information on unit assessments visit your unit's iLearn space or consult your unit convenor.

Unit description

This unit will consolidate and extend learning in selected areas of speech pathology practice. Special topics in child, adolescent and adult health care will be explored in consultation with researchers, and clinical specialist speech pathologists. These topics include multifaceted development disorders, complex medical conditions and surgical procedures, and ageing and residential care.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Select and apply theoretically-motivated, evidence-based speech pathology management procedures for multifaceted developmental speech and language disorders.

ULO2: Identify and analyse how medical and surgical procedures (e.g., head and neck surgery, craniofacial surgery, tracheostomy, laryngectomy, radiation oncology) can affect communication and swallowing in children and adults.

ULO3: Identify and critically evaluate how ageing can affect communication and

swallowing, and select appropriate, evidence-based management procedures for clients in aged care residential settings.

ULO4: Differentiate and evaluate the professional roles within multidisciplinary teams who work with children and adults with complex health and developmental conditions, and their families, in acute and community settings.

General Assessment Information

Word limits

Assessment submissions with excessive word counts will receive a penalty commensurate with the amount the submission has exceeded the word limit stated in the assessment description. Excessive word counts will result in the following penalties:

- From 11 to 20% over the word limit = reduction by one grading band.
- More than 20% over the word limit = reduction by **at least** two grading bands, with further penalties applied at the discretion of the unit convenor.

For example: Word limit = 2000 words; Submission word count = 2240, i.e., 12% over the limit, and therefore a penalty is applied as follows:

- Initial grade = D
- Penalty = reduction of one grading band
- Final grade = C

Penalty for late submission

Late submission of assessments will result in the following penalties:

- 1 day late = reduction by **no more than** one grading band, at the discretion of the unit convenor
- 2 days late = reduction by **no more than** two grading bands, at the discretion of the unit convenor
- 3 or more days late = reduction by **at least** two grading bands, with further reductions at the discretion of the unit convenor

For example: A submission is two days late, and therefore a penalty is applied as follows:

- Initial grade = HD
- Maximum penalty = reduction of two grading bands
- Final grade = C

Assessment Tasks

Name	Weighting	Hurdle	Due
Case-based assessment: Adults	50%	Yes	15/09/2020
Case-based assessment: Child	50%	Yes	20/11/2020

Case-based assessment: Adults

Assessment Type [1](#): Case study/analysis

Indicative Time on Task [2](#): 39 hours

Due: **15/09/2020**

Weighting: **50%**

This is a hurdle assessment task (see [assessment policy](#) for more information on hurdle assessment tasks)

In this assessment task, students will be provided with case information relating to adults who have communication and/or swallowing disorders. They will be also be provided with clinical scenarios, and asked to develop plans relating to speech pathology intervention for these adults. The assessment task will require them to integrate and synthesise case information, case data, theory, research evidence, and routine speech pathology practices in order to formulate plans.

On successful completion you will be able to:

- Identify and analyse how medical and surgical procedures (e.g., head and neck surgery, craniofacial surgery, tracheostomy, laryngectomy, radiation oncology) can affect communication and swallowing in children and adults.
- Identify and critically evaluate how ageing can affect communication and swallowing, and select appropriate, evidence-based management procedures for clients in aged care residential settings.
- Differentiate and evaluate the professional roles within multidisciplinary teams who work with children and adults with complex health and developmental conditions, and their families, in acute and community settings.

Case-based assessment: Child

Assessment Type [1](#): Case study/analysis

Indicative Time on Task [2](#): 38 hours

Due: **20/11/2020**

Weighting: **50%**

This is a hurdle assessment task (see [assessment policy](#) for more information on hurdle assessment tasks)

In this assessment task, students will be provided with case information relating to children who have communication and/or swallowing disorders. They will also be provided with clinical scenarios, and asked to develop plans relating to speech pathology intervention for these children. The assessment task will require them to integrate and synthesise case information, case data, theory, research evidence, and routine speech pathology practices in order to formulate plans.

On successful completion you will be able to:

- Select and apply theoretically-motivated, evidence-based speech pathology management procedures for multifaceted developmental speech and language disorders.
- Identify and analyse how medical and surgical procedures (e.g., head and neck surgery, craniofacial surgery, tracheostomy, laryngectomy, radiation oncology) can affect communication and swallowing in children and adults.
- Differentiate and evaluate the professional roles within multidisciplinary teams who work with children and adults with complex health and developmental conditions, and their families, in acute and community settings.

¹ If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

Students will participate in 2 hour lectorial classes blending teacher-fronted delivery with small group activities. Students will be expected to engage with learning materials before attending and participating in weekly classes, and then to complete learning activities following class. All learning and teaching activities will occur over the standard 13 teaching weeks of the session.

Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central](#) (<https://staff.m>

mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- [Academic Appeals Policy](#)
- [Academic Integrity Policy](#)
- [Academic Progression Policy](#)
- [Assessment Policy](#)
- [Fitness to Practice Procedure](#)
- [Grade Appeal Policy](#)
- [Complaint Management Procedure for Students and Members of the Public](#)
- [Special Consideration Policy](#) (**Note:** *The Special Consideration Policy is effective from 4 December 2017 and replaces the Disruption to Studies Policy.*)

Students seeking more policy resources can visit the [Student Policy Gateway](https://students.mq.edu.au/support/study/student-policy-gateway) (<https://students.mq.edu.au/support/study/student-policy-gateway>). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

If you would like to see all the policies relevant to Learning and Teaching visit [Policy Central](http://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central) (<http://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central>).

Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: <https://students.mq.edu.au/study/getting-started/student-conduct>

Results

Results published on platform other than [eStudent](#), (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in [eStudent](#). For more information visit ask.mq.edu.au or if you are a Global MBA student contact globalmba.support@mq.edu.au

Student Support

Macquarie University provides a range of support services for students. For details, visit <http://students.mq.edu.au/support/>

Learning Skills

Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to help you improve your marks and take control of your study.

- [Getting help with your assignment](#)
- [Workshops](#)
- [StudyWise](#)

- [Academic Integrity Module](#)

The Library provides online and face to face support to help you find and use relevant information resources.

- [Subject and Research Guides](#)
- [Ask a Librarian](#)

Student Services and Support

Students with a disability are encouraged to contact the [Disability Service](#) who can provide appropriate help with any issues that arise during their studies.

Student Enquiries

For all student enquiries, visit Student Connect at ask.mq.edu.au
