Unit description

Students in this unit have the opportunity to complete a major research project that deals with current issues in economics, under the supervision of an academic research adviser. Real world research problems are provided by an industry partner. The unit provides an opportunity for students to gain a sound understanding of how to conduct a fully-fledged research project. Students will contextualise their graduate capabilities in their final group research report.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

**ULO1:** Create economic knowledge-based solutions that can be applied to problems faced by key economic decision makers.

**ULO2:** Critically analyse economic issues and make policy recommendations based on economic theories and sound statistical or econometric evidence.

**ULO3:** Identify issues related to ecological sustainability in research problems, and recommend appropriate responses.

**ULO4:** Effectively communicate solutions to economic problems to specialist and non-specialist audiences, in written reports and oral presentations.

**ULO5:** Work in a team to develop a major group economic research report for an Industry Partner.

## General Assessment Information

No extensions will be granted for the assessment tasks. Students failing to submit and present their work during their allotted time will receive a mark of zero.

There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission – 20% penalty). This penalty does not apply to cases in which an application for special considerations is made and approved.

Students who have plagiarised will be awarded a mark of zero, will not be permitted to resubmit, and may be reported to the University Disciplinary Committee for further action.

## Assessment Tasks

Name	Weighting	Hurdle	Due
<a href="#">Essay</a>	30%	No	Week 9
<a href="#">Research Project Pitch</a>	10%	No	Week 5
<a href="#">Team Research Project</a>	60%	No	Ongoing

## Essay

Assessment Type <sup>1</sup>: Essay

Indicative Time on Task <sup>2</sup>: 30 hours

Due: **Week 9**

Weighting: **30%**

Students will be given a set of essay questions, focusing on issues of economic sustainability in the context of the session's industry partner. The essay will be due in week 9.

On successful completion you will be able to:

- Create economic knowledge-based solutions that can be applied to problems faced by key economic decision makers.
- Critically analyse economic issues and make policy recommendations based on economic theories and sound statistical or econometric evidence.
- Identify issues related to ecological sustainability in research problems, and recommend appropriate responses.

## Research Project Pitch

Assessment Type <sup>1</sup>: Project

Indicative Time on Task <sup>2</sup>: 20 hours

Due: **Week 5**

Weighting: **10%**

At the beginning of the session, students will be placed into teams of 5. Each team is then expected to complete a research project pitch, which aims to help students develop a clear sense of direction early on in their project and to support teams in organising, planning and monitoring their progress as they move forward during the session. Each research project pitch will contain information pertaining to both the individual research goals of the student and the overall research goals of each team. Completed research project pitches must be uploaded to Turnitin by week 5.

On successful completion you will be able to:

- Create economic knowledge-based solutions that can be applied to problems faced by key economic decision makers.
- Critically analyse economic issues and make policy recommendations based on economic theories and sound statistical or econometric evidence.
- Effectively communicate solutions to economic problems to specialist and non-specialist audiences, in written reports and oral presentations.

- Work in a team to develop a major group economic research report for an Industry Partner.

## Team Research Project

Assessment Type <sup>1</sup>: Project

Indicative Time on Task <sup>2</sup>: 55 hours

Due: **Ongoing**

Weighting: **60%**

The team research project consists of three parts. 1. Presentation 1 - Week 8 (10%). During the week 8 lecture, each team will be asked to present a summary of the progress made on their research project to the class. This presentation is designed to provide opportunities for constructive feedback from peers and academic staff that can be used to inform the remainder of their research projects. 2. Presentation 2 and Industry Partner Presentations - Weeks 11, 12 and 13 (10%). During lectures in weeks 11, 12 and 13, each team will be asked to present their final research findings to the industry partner along with their peers, academic staff and a selection of faculty PACE/program coordinators. 3. Team research paper - Week 13 (40%). Each team is required to submit to Turnitin a 5,000-word economic research paper based on the topics presented by the industry partner at the beginning of the session.

On successful completion you will be able to:

- Create economic knowledge-based solutions that can be applied to problems faced by key economic decision makers.
- Identify issues related to ecological sustainability in research problems, and recommend appropriate responses.
- Effectively communicate solutions to economic problems to specialist and non-specialist audiences, in written reports and oral presentations.
- Work in a team to develop a major group economic research report for an Industry Partner.

<sup>1</sup> If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

<sup>2</sup> Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

## Delivery and Resources

### Learning and teaching strategy

The learning and teaching strategy in ECON3081 recognises that students learn from contact with academic staff and their peers. It also recognises that students must take responsibility for their learning process, which includes independent study and reflection.

### Lectures and consultation seminars

The timetabled three-hour lectures for ECON3081 are in a mixed format, comprising of a variety of formal lectures, industry partner presentations, student presentations and consultation seminars. As ECON3081 is a participation and capstone unit, you are strongly encouraged to get engaged each and every lecture in order to gain vital hands-on experience and exposure to the ideas of peers, academic staff and the industry partner.

### Required and Recommended Texts

There is no set textbook for the course. Recommended reading material will be posted to the unit iLearn during the session.

## Unit Schedule

Week	Lecture Topic	Assessment Task Due
1	Introduction to ECON3081	
2	Industry Partner Lecture	
3	Writing an Economics Research Paper I	
4	Writing an Economics Research Paper II	
5	Writing an Economics Research Paper III	Research Project Pitch
6	Writing an Economics Research Paper IV	
7	Project Consultation Seminar	
8	Research Presentation I	Presentation I
9	Project Consultation Seminar	Essay
10	Project Consultation Seminar	
11 & 12	Research Presentation to Industry Partner	Presentation
13	Research Presentation to Industry Partner	Team Research Paper
