Unit description

Creative writing involves expression and skills. It also involves reading. This practical unit introduces students to different approaches and ways of thinking about creative writing. Students engage in a series of lectures and workshops, learning a range of creative writing skills and topics. Students are encouraged to be experimental and adventurous in their writing. Seminars address different creative writing topics and readings so that students can learn about various genres, methods and approaches. The workshops are interactive; they aim to increase understanding of the process of creative writing. The aim of this unit is for students to learn, achieve and realise their creativity and writing skills in their creative work, engaging with lecture and reading content and participating in writing workshops, on-course writing exercises, and doing set assignments.
