The unit will provide students with perspectives on a range of commercially important legal issues such as forming a business, management responsibilities, investor/shareholder protection, and insolvency. Topics include contract law, agency, partnerships, characteristics of companies, director's duties, rights of shareholders, voluntary administration, and liquidation. At the conclusion of the unit students will be aware of legal regulation applicable to different types of business organisations, particularly companies, and be able to identify and evaluate a range of corporate legal issues.
