Session 2 Learning and Teaching Update

The decision has been made to conduct study online for the remainder of Session 2 for all units WITHOUT mandatory on-campus learning activities. Exams for Session 2 will also be online where possible to do so.

This is due to the extension of the lockdown orders and to provide certainty around arrangements for the remainder of Session 2. We hope to return to campus beyond Session 2 as soon as it is safe and appropriate to do so.

Some classes/teaching activities cannot be moved online and must be taught on campus. You should already know if you are in one of these classes/teaching activities and your unit convenor will provide you with more information via iLearn. If you want to confirm, see the list of [units with mandatory on-campus classes/teaching activities](#).

Visit the [MQ COVID-19 information page](#) for more detail.

Unit description

This unit explores the various forms of intellectual property protected under statutory regimes and general law. The unit identifies and evaluates existing intellectual property regimes such as copyright, patents, plant breeders' rights, designs, trade mark, passing off and relevant aspects of unfair trading laws. The unit analyses the subject matter protected, conditions of such protection and what constitutes infringement for each head of protection. Students are taught to identify and explain the interrelationship and overlaps between different intellectual property regimes. Students learn how to apply intellectual property principles and policy in practical scenarios.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>
