Session 2 Learning and Teaching Update

The decision has been made to conduct study online for the remainder of Session 2 for all units WITHOUT mandatory on-campus learning activities. Exams for Session 2 will also be online where possible to do so.

This is due to the extension of the lockdown orders and to provide certainty around arrangements for the remainder of Session 2. We hope to return to campus beyond Session 2 as soon as it is safe and appropriate to do so.

Some classes/teaching activities cannot be moved online and must be taught on campus. You should already know if you are in one of these classes/teaching activities and your unit convenor will provide you with more information via iLearn. If you want to confirm, see the list of units with mandatory on-campus classes/teaching activities.

Visit the MQ COVID-19 information page for more detail.

Unit description
This introductory unit in corporate finance focuses on the financing and investing decisions made by the finance manager of an organisation. While the emphasis is on the theory of the firm, students are also given exposure to current issues affecting corporate finance. Satisfactory completion of the unit equips students with a grasp of the following principals of financial economics: the relation between risk and expected return and the time value of money. The unit also provides an introductory coverage of derivative securities and no arbitrage valuation in the international finance.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://students.mq.edu.au/important-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Discuss fundamental aspects of the theory of the firm and outline current issues affecting corporate finance.
ULO2: Explain financing and investing decisions made by finance managers.
ULO3: Demonstrate understanding of the relation between risk and expected return, the time value of money, and valuation of securities via discounted cash flows.
ULO4: Apply fundamental analytical techniques in finance to simple real-life problems.
General Assessment Information

Assessment criteria (including information about late submissions and extensions) for all assessment tasks will be provided on the unit iLearn site.

Special consideration

For the Mid Session Test, where special consideration is applied for and approved, students will be given a verbal examination by two members of staff.

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the Learning Skills Unit for academic skills support.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

**Delivery and Resources**

**Classes**

- Students should view the prerecorded lecture each week as well as the appropriate tutorial.
Online lectures and tutorials will be available each week as well as online consultation.

Tutorials begin in Week 2 and cover material based on the preceding week's lecture topic.

Students should attend online PAL Sessions where necessary to improve their understanding of the material covered.

Required and Recommended Texts and/or Materials
The textbook will assist you in the weekly quizzes. Detailed textbook requirements are available on ilearn.

Required Textbook (source for weekly tutorial questions):

or

Recommended Textbooks:

• Fundamentals of Corporate Finance, Australian 3rd Edition ISBN : 9780730355175 or 9780730363460 (Fundamentals)

• Fundamentals of Corporate Finance (6th ed.) ISBN 9781743079485 (Ross)

Technology Used and Required

• Financial non-programmable calculators can be used in the unit. A financial calculator is not essential as a scientific non-programmable calculator should meet all your needs (calculation of the Internal Rate of Return (IRR) is not required in any of the assessment tasks). Note: Only non-programmable calculators without text retrieval functionality are allowed for use in the unit’s assessments tasks.

• Students should have access to the internet.

Unit Web Page

• Course material and announcements are available on the learning management system (iLearn).

• Students should check iLearn regularly before each lecture, tutorial and assessment.
Learning and Teaching Activities

The unit is delivered through weekly lectures and tutorial classes. Tutorial questions will mostly be sourced from the required textbook. The question numbers that will be discussed in tutorials will be posted to iLearn each week. Students should attempt these questions before tutorials. Brief answers to the tutorial questions will be posted on iLearn after each week.

To achieve the best possible results students should:

1) View all lectures and tutorial classes.

2) Tutorial questions and problems are assigned from the required text book;

3) Read the assigned chapters of the required text book before attending lectures;

4) Download lecture notes from iLearn, which are available weekly before lectures. Ensure these notes are brought to lectures.

5) Attend PAL sessions where difficulties are experienced.
