Session 2 Learning and Teaching Update
The decision has been made to conduct study online for the remainder of Session 2 for all units WITHOUT mandatory on-campus learning activities. Exams for Session 2 will also be online where possible to do so.

This is due to the extension of the lockdown orders and to provide certainty around arrangements for the remainder of Session 2. We hope to return to campus beyond Session 2 as soon as it is safe and appropriate to do so.

Some classes/teaching activities cannot be moved online and must be taught on campus. You should already know if you are in one of these classes/teaching activities and your unit convenor will provide you with more information via iLearn. If you want to confirm, see the list of units with mandatory on-campus classes/teaching activities.

Visit the MQ COVID-19 information page for more detail.

**Unit description**

This unit is concerned with the study of human communication from a social-semiotic perspective. It includes the study of the philosophical and practical differences between different schools of genre in applied linguistics; context-related patterns of communication in language and other semiotic systems (such as gesture, image, and layout); and the ways in which such patterns occur across semiotic systems and are systematically related. Multimodal communication in sites of practice such as educational, media, and professional contexts is explored and analysed from a coherent theoretical perspective.

**Important Academic Dates**

Information about important academic dates including deadlines for withdrawing from units are available at [https://students.mq.edu.au/important-dates](https://students.mq.edu.au/important-dates)

- **ULO1**: apply knowledge and understanding of the notions of genre, discourse, and multimodality to a consideration of communicative practices in a specific social context
- **ULO2**: analyse texts by applying knowledge of commonly occurring genres in educational and other contexts
- **ULO3**: analyse patterns of meaning across different semiotic systems (e.g. language, image, layout) in specific communicative contexts
