Disclaimer
Macquarie University has taken all reasonable measures to ensure the information in this publication is accurate and up-to-date. However, the information may change or become out-dated as a result of change in University policies, procedures or rules. The University reserves the right to make changes to any information in this publication without notice. Users of this publication are advised to check the website version of this publication [or the relevant faculty or department] before acting on any information in this publication.

Notice
Some on-campus classes have moved online for the first two weeks of Session, before returning to campus in Week 3. If you are studying a unit outside of the primary Session 2 timetable, please contact your teaching staff team for further details.

Some classes/teaching activities cannot be moved online and must be taught on campus. To find out if you are enrolled in one of these classes/teaching activities, you can check to see if your unit is on the list of units with mandatory on-campus classes/teaching activities.

Your Unit Convenor will provide more information via an iLearn announcement when your iLearn unit becomes available.

<tr>
<td>The 4th SPINE unit aimed to develop professional, transferable and employability skills. The Unit consists of a series of online modules and integrated project-based learning activities.</td>
</tr>
</tbody>
</table>

Students will be exposed to real engineering projects and be apply and integrate their learnt technical skills in resolving a real-world inspired engineering problem. The working environment will facilitate the development of transferable skills such as effective team working skills and various form of technical communication skills.

Students are expected to apply systems thinking and design thinking in developing an innovative and practical engineering solution for the given problem. They will be expected to work alongside fellow senior students.
Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at [https://students.mq.edu.au/important-dates](https://students.mq.edu.au/important-dates)

Learning Outcomes
On successful completion of this unit, you will be able to:

**ULO1:** Apply appropriate thinking strategies to achieve creative and innovative engineering solutions.

**ULO2:** Communicate technical information to a diverse range of audiences (including lay-people and experts in the field) using oral and written communication skills.

**ULO3:** Enumerate project parameters to effectively decompose complex engineering systems into subsystems such that they are objective and measurable.

**ULO4:** Work in a team and apply accountability strategies to ensure team objective is met.

**ULO5:** Apply rigour to the production of traceability documentation of the project.

**ULO6:** Demonstrate effective self-management ability and continual professional development.

General Assessment Information

**Grading and passing requirement for unit**

In order to pass this unit, a student must obtain a mark of 50 or more for the unit (i.e. obtain a passing grade P/ CR/ D/ HD).

For further details about grading, please refer to the policies and procedures section.

**Hurdle Requirements**

There will be a "Fitness to Practice (FTP)" hurdle requirement that students must meet in order to pass this unit. Any students who do not meet the professionalism required of the Unit will first be warned formally via email and an in-person meeting. This includes following the given lab safety requirements and adherence to COVID safety policy. For further details please refer to the policies and procedures section, specifically the Fitness to Practice Procedure.

Assessment Tasks

<table>
<thead>
<tr>
<th>Name</th>
<th>Weighting</th>
<th>Hurdle</th>
<th>Due</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fitness to Practice Hurdle</td>
<td>0%</td>
<td>Yes</td>
<td>End of Semester</td>
</tr>
</tbody>
</table>
Name | Weighting | Hurdle | Due
--- | --- | --- | ---
A1 Online materials | 20% | No | Refer to iLearn
A2. Reflective writing | 10% | No | Week 7 and 13
A3. Portfolio | 10% | No | Week 13
A5. Vertically Integrated Project | 60% | No | refer to iLearn

Fitness to Practice Hurdle
Assessment Type: Practice-based task
Indicative Time on Task: 0 hours
Due: End of Semester
Weighting: 0%
This is a hurdle assessment task (see assessment policy for more information on hurdle assessment tasks)

This non weighted hurdle requires students to demonstrate achievement and compliance with the Engineers Australia Stage 1 Competency. In particular, but not limited to Section 3: Professional and Personal Attributes. This is a "fitness to practice" demonstration task.

On successful completion you will be able to:
- Demonstrate effective self-management ability and continual professional development.

A1 Online materials
Assessment Type: Quiz/Test
Indicative Time on Task: 10 hours
Due: Refer to iLearn
Weighting: 20%

A range of topics delivered via podcasts, video recordings and other reading materials. Periodic online assessment around these topics. Material content will include but not limited to project management, team management, project organisation.

On successful completion you will be able to:
- Apply appropriate thinking strategies to achieve creative and innovative engineering solutions.
• Enumerate project parameters to effectively decompose complex engineering systems into subsystems such that they are objective and measurable.
• Work in a team and apply accountability strategies to ensure team objective is met.
• Apply rigour to the production of traceability documentation of the project.
• Demonstrate effective self-management ability and continual professional development.

A2. Reflective writing

Assessment Type: Reflective Writing
Indicative Time on Task: 5 hours
Due: Week 7 and 13
Weighting: 10%

Reflective writing on transferable skills learnt. There will be two required submission at two-time points in the semester. Refer to iLearn for more information.

On successful completion you will be able to:
• Work in a team and apply accountability strategies to ensure team objective is met.
• Demonstrate effective self-management ability and continual professional development.

A3. Portfolio

Assessment Type: Portfolio
Indicative Time on Task: 10 hours
Due: Week 13
Weighting: 10%

Continue professional development. A core part of the SPINE unit where students are to continually improve on their Portfolio development.

On successful completion you will be able to:
• Demonstrate effective self-management ability and continual professional development.

A5. Vertically Integrated Project

Assessment Type: Practice-based task
Indicative Time on Task: 45 hours
Due: refer to iLearn
Weighting: 60%
Working collectively as a team of engineers (different disciplines and years), students are to design, conceive, document, implement and communicate a detailed plan to a multi-disciplinary real-world inspired engineering problem. The work will have multiple subcomponents and milestone and will required teams to peer evaluate. More information on iLearn.

On successful completion you will be able to:

- Apply appropriate thinking strategies to achieve creative and innovative engineering solutions.
- Communicate technical information to a diverse range of audiences (including lay-people and experts in the field) using oral and written communication skills.
- Enumerate project parameters to effectively decompose complex engineering systems into subsystems such that they are objective and measurable.
- Work in a team and apply accountability strategies to ensure team objective is met.
- Apply rigour to the production of traceability documentation of the project.

1 If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the Learning Skills Unit for academic skills support.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

**Delivery and Resources**

Refer to iLearn for more details.

**Unit Schedule**

Refer to iLearn for more details.

**Policies and Procedures**

Macquarie University policies and procedures are accessible from Policy Central (https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- [Academic Appeals Policy](https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central)
- [Academic Integrity Policy](https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central)
• Academic Progression Policy
• Assessment Policy
• Fitness to Practice Procedure
• Grade Appeal Policy
• Complaint Management Procedure for Students and Members of the Public
• Special Consideration Policy *(Note: The Special Consideration Policy is effective from 4 December 2017 and replaces the Disruption to Studies Policy.)*

Students seeking more policy resources can visit the Student Policy Gateway (https://students.mq.edu.au/support/study/student-policy-gateway). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

If you would like to see all the policies relevant to Learning and Teaching visit Policy Central (https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central).

**Student Code of Conduct**

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: [https://students.mq.edu.au/admin/other-resources/student-conduct](https://students.mq.edu.au/admin/other-resources/student-conduct)

**Results**

Results published on platform other than eStudent, (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au or if you are a Global MBA student contact globalmba.support@mq.edu.au

**Student Support**

Macquarie University provides a range of support services for students. For details, visit [http://students.mq.edu.au/support/](http://students.mq.edu.au/support/)

**Learning Skills**

Learning Skills ([mq.edu.au/learningskills](http://mq.edu.au/learningskills)) provides academic writing resources and study strategies to help you improve your marks and take control of your study.

- Getting help with your assignment
- Workshops
- StudyWise
- Academic Integrity Module

The Library provides online and face to face support to help you find and use relevant information resources.

• Ask a Librarian

Student Enquiry Service
For all student enquiries, visit Student Connect at ask.mq.edu.au
If you are a Global MBA student contact globalmba.support@mq.edu.au

Equity Support
Students with a disability are encouraged to contact the Disability Service who can provide appropriate help with any issues that arise during their studies.

IT Help
For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.
When using the University's IT, you must adhere to the Acceptable Use of IT Resources Policy. The policy applies to all who connect to the MQ network including students.

Changes from Previous Offering
In response to LEU and other students feedback from previous years, there has been a slight change to the due dates and workload requirement of the unit.
Also, the Engineering challenge was changed to ensure authentic projects are used in running this unit.
