Unit description

The unit focuses on two big ideas: urbanisation and the Anthropocene – a proposed epoch in which humans are driving planetary change. For the first time in human history, over half of the world's population live in cities. Urbanisation and the political, cultural and economic structures that sustain urban life are key drivers of global environmental change. The unit asks the question: how are we to imagine, plan and govern cities in the Anthropocene epoch? How are cities contributing to global environmental change and what solutions might cities offer? Key dimensions of urban and planning theory and practice are introduced, including: urban infrastructures and mobilities, social change and social justice, urban political economy and governance, and sustainability transitions. Students will apply theory and practice to case studies of Australian and international cities to explore the problems and possibilities of living on an urbanised planet.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Identify and describe historical and contemporary processes of urbanisation

ULO2: Discuss the interconnections between cities, climate change and social justice

ULO3: Explain how cities are imagined, planned and governed in theory and practice

ULO4: Apply urban and planning theories to case studies of Australian and international cities

ULO5: Communicate to diverse audiences using appropriately selected written, oral and visual means

General Assessment Information

Assignment requirements and submission

Detailed requirements and marking rubrics for each assessment are available from the iLearn site. All written assignments should be submitted [online to Turnitin](#) via the relevant links provided in iLearn. You are **not** required to submit a hardcopy of any assignments or include a cover sheet.

Assessment extensions and late penalties

Circumstances that affect your ability to complete assignments by the deadline must be discussed with the convenor (Sara) prior to the due date. Extensions will be granted only in unforeseen or exceptional circumstances according to the University [Special Consideration policy](#). Students must apply online via [AskMQ](#) and provide appropriate supporting documentation (e.g. medical certificate).

Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – two (2) marks out of 100 will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted more than seven (7) days (incl. weekends) after the original submission deadline.

Assessment feedback

All feedback for assignments will be made available online.

Delivery and Resources

Classes

Pre-recorded lectures and supporting resources will be uploaded each week (by 9am on Mondays). Tutorials for online students are asynchronous and take place through weekly discussion forums. You should listen to the pre-recorded lecture, *prior* to making contributions to the discussion forums.

Reading

There are a range of journal articles and chapters that are required reading. These will be listed on iLearn and available via Leganto.

Technology used and required

All enrolled students have access to the GEOP1080 website via iLearn. iLearn will provide access to lectures (powerpoint presentations for download and recordings through the University's Echo lecture recording facility) as well as readings, links and forum discussions. Regular access to iLearn is required in order to complete the unit.
