Session 2 Learning and Teaching Update

The decision has been made to conduct study online for the remainder of Session 2 for all units WITHOUT mandatory on-campus learning activities. Exams for Session 2 will also be online where possible to do so.

This is due to the extension of the lockdown orders and to provide certainty around arrangements for the remainder of Session 2. We hope to return to campus beyond Session 2 as soon as it is safe and appropriate to do so.

Some classes/teaching activities cannot be moved online and must be taught on campus. You should already know if you are in one of these classes/teaching activities and your unit convenor will provide you with more information via iLearn. If you want to confirm, see the list of [units with mandatory on-campus classes/teaching activities](#).

Visit the [MQ COVID-19 information page](#) for more detail.

Co-badged status

Unit description

This unit addresses comprehensive and practical considerations of qualitative research design, covering a range of qualitative research methodologies and analytical tools that are based on the main research philosophies underpinning qualitative research in business and organisation research. The topics include advanced research approaches and methods such as ethnography, discourse analysis, and critical approaches. It helps students develop advanced research skills that are critical to knowledge generation in business research and problem solving.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Explain the relative advantages and disadvantages of a diverse range of qualitative research methods used in management research in developing a research design

ULO2: Conduct qualitative research using a sound understanding of different coding and interpretation strategies that are consistent with their respective research question, method, and research philosophy

ULO3: Develop a theoretical research contribution by relating findings from qualitative data analysis to a literature review

ULO4: Analyze textual data in ways that are consistent with different research philosophies that can underpin qualitative research

Assessment Tasks

Name	Weighting	Hurdle	Due
Essay	30%	Yes	Week 13
Weekly Reveiw	40%	Yes	Weekly
Report	30%	Yes	Week 6

Essay

Assessment Type ¹: Essay

Indicative Time on Task ²: 33.3 hours

Due: **Week 13**

Weighting: **30%**

This is a hurdle assessment task (see [assessment policy](#) for more information on hurdle assessment tasks)

Select any text (e.g. report; interview transcript; series of news or opinion articles on a particular topic) and write a 3,000 word research report that presents the findings of three different analyses that are each based a different research philosophy: (neo-)positivist, interpretive, and critical. Justify the coding and interpretation techniques you used for each analysis in relation to your research question, making use of the relevant literature on qualitative research methods. Support your main findings using data fragments and/or summary tables.

On successful completion you will be able to:

- Explain the relative advantages and disadvantages of a diverse range of qualitative research methods used in management research in developing a research design
- Conduct qualitative research using a sound understanding of different coding and interpretation strategies that are consistent with their respective research question, method, and research philosophy
- Develop a theoretical research contribution by relating findings from qualitative data analysis to a literature review
- Analyze textual data in ways that are consistent with different research philosophies that can underpin qualitative research

Weekly Reveiw

Assessment Type ¹: Reflective Writing

Indicative Time on Task ²: 44.4 hours

Due: **Weekly**

Weighting: **40%**

This is a hurdle assessment task (see [assessment policy](#) for more information on hurdle assessment tasks)

For each of the sessions from weeks 2 -12 of the course, write a 500-1,000 review that:

- 1) Summarizes what you believe to be the most important learnings from the lecture and readings in each week
- 2) Critically discuss how the materials covered could relate to your own research project e.g. how might you use some of the points discussed to improve, critique, and/or justify your research project?

On successful completion you will be able to:

- Explain the relative advantages and disadvantages of a diverse range of qualitative research methods used in management research in developing a research design
- Conduct qualitative research using a sound understanding of different coding and interpretation strategies that are consistent with their respective research question, method, and research philosophy
- Develop a theoretical research contribution by relating findings from qualitative data analysis to a literature review
- Analyze textual data in ways that are consistent with different research philosophies that can underpin qualitative research

Report

Assessment Type ¹: Report

Indicative Time on Task ²: 33.3 hours

Due: **Week 6**

Weighting: **30%**

This is a hurdle assessment task (see [assessment policy](#) for more information on hurdle assessment tasks)

Select three recent (within the last 5 years) empirical research papers from three top academic journals that have used the same particular research method, and write a 3,000 word report that critically analyzes and compares the three papers in terms of:

- 1) The way they position the research question in relation to existing literature
- 2) The way they justify their research methods
- 3) The extent to which, and ways in which, their main theoretical contributions is supported by, and connected to, the findings

On successful completion you will be able to:

- Explain the relative advantages and disadvantages of a diverse range of qualitative research methods used in management research in developing a research design
 - Conduct qualitative research using a sound understanding of different coding and interpretation strategies that are consistent with their respective research question, method, and research philosophy
 - Develop a theoretical research contribution by relating findings from qualitative data analysis to a literature review
 - Analyze textual data in ways that are consistent with different research philosophies that can underpin qualitative research
-

¹ If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

The unit will be taught online. Electronic invitations for each lecture can be found under each session on Ilearn.

All learning resources are available on Ilearn

Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central \(https://policies.mq.edu.au\)](https://policies.mq.edu.au). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- [Academic Appeals Policy](#)
- [Academic Integrity Policy](#)
- [Academic Progression Policy](#)
- [Assessment Policy](#)
- [Fitness to Practice Procedure](#)
- [Grade Appeal Policy](#)
- [Complaint Management Procedure for Students and Members of the Public](#)
- [Special Consideration Policy](#)

Students seeking more policy resources can visit [Student Policies \(https://students.mq.edu.au/support/study/policies\)](https://students.mq.edu.au/support/study/policies). It is your one-stop-shop for the key policies you need to know about

throughout your undergraduate student journey.

To find other policies relating to Teaching and Learning, visit [Policy Central \(https://policies.mq.edu.au\)](https://policies.mq.edu.au) and use the [search tool](#).

Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: <https://students.mq.edu.au/admin/other-resources/student-conduct>

Results

Results published on platform other than [eStudent](#), (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in [eStudent](#). For more information visit ask.mq.edu.au or if you are a Global MBA student contact globalmba.support@mq.edu.au

Student Support

Macquarie University provides a range of support services for students. For details, visit <http://students.mq.edu.au/support/>

Learning Skills

Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to help you improve your marks and take control of your study.

- [Getting help with your assignment](#)
- [Workshops](#)
- [StudyWise](#)
- [Academic Integrity Module](#)

The Library provides online and face to face support to help you find and use relevant information resources.

- [Subject and Research Guides](#)
- [Ask a Librarian](#)

Student Services and Support

Students with a disability are encouraged to contact the [Disability Service](#) who can provide appropriate help with any issues that arise during their studies.

Student Enquiries

For all student enquiries, visit Student Connect at ask.mq.edu.au

If you are a Global MBA student contact globalmba.support@mq.edu.au

IT Help

For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University's IT, you must adhere to the [Acceptable Use of IT Resources Policy](#). The policy applies to all who connect to the MQ network including students.
