Unit description

This unit provides you with practical 'hands on' experience working on a social research project for government, university, industry or a community based organisation. Projects involve a variety of research activities including policy reviews, program design, evaluations, community advocacy and more. The unit is made up of two parts. The first part involves you undertaking a supervised research placement with an organisation (150 hours). Projects are generally sourced for you, however you may organise your own with the unit convenor's approval at least two months before the commencement of semester. The second part involves six workshops designed to develop skills and capacities you will need to manage and conduct research in an ethical and professional manner. From these two parts of the unit, and by reflecting on your project and personal experience, you will gain an understanding of the work of social researchers and the contribution they make to organisations and society more broadly. You will also gain insights into the skills and knowledge you need to further develop, possible career options and set goals for the future.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Demonstrate and apply qualitative and/or quantitative research skills and

knowledge to an applied social research project for an organisation.

ULO2: Design and implement a project plan to successfully undertake and manage tasks, data, risks, time and resources.

ULO3: Integrate critical thinking and reflective practices into their project, and develop self-management strategies to address challenges and enhance personal, academic and career learning.

ULO4: Critically analyse and report on research methods and processes, project outputs and outcomes, effectively using a range of professional and academic written and oral formats.

ULO5: Create and produce a high quality evidence informed artefact such as a report, research instrument, discussion paper or resource for an organisation that supports the organisation's purpose and strategic goals.

General Assessment Information

The Project Management Plan, Short Written Task and Final Report must all be submitted electronically via iLearn and the Turnitin function.

Please note that Project Management Plan (PMP) is due once you have completed a minimum of 20 hours working on your project. The submission date will therefore vary between students.

Contact the Unit Convenor if you find yourself unable to meet the submission dates for assessments and/or the minimum placement hours cannot be met.

Unless a Special Consideration request has been submitted and approved, a penalty for lateness will apply.

University Grading Policy

The grade that a student receives will signify their overall performance in meeting the learning outcomes of the unit of study. Graded units will use the following grades.

HD	High Distinction	85-100
D	Distinction	75-84
Cr	Credit	65-74
P	Pass	50-64
F	Fail	0-49

Results published on platform other than [eStudent](#), (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University.

Return of Marked Work

As per university policy, written assessments will be returned to students within three weeks of

the submission date. Early assignments will not be marked early.**Note that Project Management Plans are marked as quickly as possible to allow students to continue with their work.*

Special Consideration (Extensions)

The University recognises that students may experience events or conditions that adversely affect their academic performance. If you experience serious and unavoidable difficulties at exam time or when assessment tasks are due, you can consider applying for Special Consideration.

You need to show that the circumstances:

1. were serious, unexpected and unavoidable
2. were beyond your control
3. caused substantial disruption to your academic work
4. substantially interfered with your otherwise satisfactory fulfilment of the unit requirements
5. lasted at least three consecutive days or a total of 5 days within the teaching period and prevented completion of an assessment task scheduled for a specific date.

More information about Special Consideration is available in the Policies and Procedures section of the unit guide.

Late Penalties

Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – two (2) marks out of 100 will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted more than seven (7) days (incl. weekends) after the original submission deadline. No late submissions will be accepted for timed assessments – e.g. quizzes, online tests.

Assessment Tasks

Name	Weighting	Hurdle	Due
<u>Project Management Plan (PMP)</u>	20%	No	Due the first 20 hours of your internship
<u>Short Written Task</u>	10%	No	26 March 2021
<u>Presentation</u>	25%	No	25 May 2021
<u>Final Project Report</u>	25%	No	12 June 2021
<u>Workplace supervisor's report</u>	20%	No	Week 13

Project Management Plan (PMP)

Assessment Type ¹: Plan

Indicative Time on Task ²: 25 hours

Due: **Due the first 20 hours of your internship**

Weighting: **20%**

Students develop their project management planning skills by creating a plan for their research project/activity. The plan must include: project description and rationale; outline of study design, objectives, outcomes and key stakeholders; specify key tasks and timeline; resources required; risks/issues and mitigation strategies; strategies for monitoring and evaluating the project and the quality of their work. The workplace supervisor must check this task prior to submission.

On successful completion you will be able to:

- Demonstrate and apply qualitative and/or quantitative research skills and knowledge to an applied social research project for an organisation.
- Design and implement a project plan to successfully undertake and manage tasks, data, risks, time and resources.

Short Written Task

Assessment Type ¹: Reflective Writing

Indicative Time on Task ²: 10 hours

Due: **26 March 2021**

Weighting: **10%**

This task requires students to use critical and ethical thinking along with reflective skills to respond a question focused on either: a) the application of a specific principle of research ethics to their own project (using the National Health and Medical Research Council guidelines) OR b) to critically analyse and report on their own positionality in relation to their research project.

On successful completion you will be able to:

- Demonstrate and apply qualitative and/or quantitative research skills and knowledge to an applied social research project for an organisation.
- Integrate critical thinking and reflective practices into their project, and develop self-management strategies to address challenges and enhance personal, academic and career learning.
- Critically analyse and report on research methods and processes, project outputs and outcomes, effectively using a range of professional and academic written and oral formats.

Presentation

Assessment Type ¹: Presentation

Indicative Time on Task ²: 25 hours

Due: **25 May 2021**

Weighting: **25%**

This task is designed for students to synthesize their academic and professional knowledge and present it in the form of a professional presentation to class and workplace supervisors.

Presenters need to: 1. Engage with their audience through effective non-verbal and verbal skills – eye contact, body language, poise, enthusiasm and elocution! 2. Provide an overview of their project and organisation, including examples and evidence of their work/project. 3. Draw conclusions about the impact of their work on their organization and/or their future career/study plans. 4. Share reflections on their learning/s. 5. Manage their presentation in a logical, organized and timely way.

On successful completion you will be able to:

- Demonstrate and apply qualitative and/or quantitative research skills and knowledge to an applied social research project for an organisation.
- Integrate critical thinking and reflective practices into their project, and develop self-management strategies to address challenges and enhance personal, academic and career learning.
- Critically analyse and report on research methods and processes, project outputs and outcomes, effectively using a range of professional and academic written and oral formats.

Final Project Report

Assessment Type ¹: Report

Indicative Time on Task ²: 30 hours

Due: **12 June 2021**

Weighting: **25%**

The final project report requires students to critically analyse and reflect on their research project and experiences. The report must include: a critique of the study design and research methods/approaches used; research related challenges faced and how these were overcome; ethical and cultural considerations and how addressed; examples/samples of work completed; a critical reflection on their personal, academic and career learning along with a consideration of the value of their disciplinary knowledge (social research) and/or their major to their project and/or society

more broadly.

On successful completion you will be able to:

- Demonstrate and apply qualitative and/or quantitative research skills and knowledge to an applied social research project for an organisation.
- Integrate critical thinking and reflective practices into their project, and develop self-management strategies to address challenges and enhance personal, academic and career learning.
- Critically analyse and report on research methods and processes, project outputs and outcomes, effectively using a range of professional and academic written and oral formats.

Workplace supervisor's report

Assessment Type ¹: Work-integrated task

Indicative Time on Task ²: 0 hours

Due: **Week 13**

Weighting: **20%**

The workplace supervisor will undertake an assessment of the student's work and performance at the end of the project.

On successful completion you will be able to:

- Design and implement a project plan to successfully undertake and manage tasks, data, risks, time and resources.
- Integrate critical thinking and reflective practices into their project, and develop self-management strategies to address challenges and enhance personal, academic and career learning.
- Create and produce a high quality evidence informed artefact such as a report, research instrument, discussion paper or resource for an organisation that supports the organisation's purpose and strategic goals.

¹ If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment

- the [Writing Centre](#) for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

The unit has an academic component (delivered through 6 seminars/workshops) and a practical component (students' research work for the organisation).

For the academic component students will be required to:

- submit the required assessment tasks on time
- complete required readings
- attend all seminars/workshops (if unable to attend the unit convenor must be contacted and an alternative activity will be assigned for completion)

For the practical component of the unit students will be required to:

- complete a minimum 150 placement hours with a partner organisation
- define a work schedule with their workplace supervisor and commit to it
- work on a research project according to the research plan they discuss with their workplace supervisor/s
- submit a final output of the research project to their organisation.

Unit Schedule

There are two available options for the seminars: Tuesday 11-1pm (4 Western Rd - tutorial room 232) OR Tuesday 2-4pm. The Tuesday morning seminar is scheduled as a face-to-face session on campus, while the 2-4pm seminar is designed as a combination of on-line and zoom for those students who can not come to campus. Once you have enrolled into a particular seminar group you need to stay in your assigned group unless you are unable to come to campus due to CV-19.

The dates and topics are listed below.

Seminar 1	Tues 23 Feb	Introduction to experiential learning and your social research project
Seminar 2	Tues 2 March	Managing a research project
Seminar 3	Tues 9 March	Reflective & reflexive practice
Seminar 4	Tues 16 March	Research ethics
Seminar 5	Tues 25 May	Communicating research
Seminar 6	Tues 1 June	Pursuing a career in social research
