Session 2 Learning and Teaching Update

The decision has been made to conduct study online for the remainder of Session 2 for all units WITHOUT mandatory on-campus learning activities. Exams for Session 2 will also be online where possible to do so.

This is due to the extension of the lockdown orders and to provide certainty around arrangements for the remainder of Session 2. We hope to return to campus beyond Session 2 as soon as it is safe and appropriate to do so.

Some classes/teaching activities cannot be moved online and must be taught on campus. You should already know if you are in one of these classes/teaching activities and your unit convenor will provide you with more information via iLearn. If you want to confirm, see the list of units with mandatory on-campus classes/teaching activities.

Visit the MQ COVID-19 information page for more detail.

Unit description
This unit examines the law of torts and its operation in context from doctrinal, practical and theoretical perspectives. The unit builds on and extends knowledge and skills gained in previous law units, with particular emphasis on skills of oral and written communication, problem solving, and analysis of primary source material. Torts addresses critical questions about social responsibility and obligations members of a community owe to one other, and how civil legal standards can and should be used to encourage appropriate behaviour and rectify wrongs. Negligence is the principal focus; other topics studied include intentional torts, nuisance and different types of liability.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://students.mq.edu.au/important-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Describe the fundamental doctrines and sources (both common law and statute) for different types of torts and categories of liability
ULO2: Critically analyse the current state of tort law including law reform proposals and comparative developments in other jurisdictions.
ULO3: Apply tort law to complex problems using appropriate legal problem-solving techniques.
ULO4: Analyse the elements and categories of negligence and determine possible defences to a negligence action
ULO5: Identify and analyse the legal components of selected property torts including nuisance, trespass to land and chattels, conversion and intentional torts to the person.

General Assessment Information
Students should submit applications for Special Consideration electronically via ask.mq.edu.au, along with the supporting documentation. Before submitting their applications, students should refer to the Special Consideration policy.

Markers will strictly apply word limits and won't mark work above them. Markers will use plagiarism detection software.

The iLearn website includes detailed marking rubrics. Markers undertake a process of 'blind marking' to establish a common marking standard. Markers will double mark all Fail assessments. The Unit Convenor will subject marks to moderation for the purposes of consistency and quality standards.

Delivery and Resources

The delivery of this unit combines online learning content (asynchronous work) and a weekly one hour (face to face or online) tutorial from weeks 1-13. There are no "live" lectures for this unit.

Students require access to a computer and a secure and reliable server. The iLearn website
contains all Unit requirements and a weekly teaching, reading, and asynchronous work schedule.

Students should submit all assessments via Turnitin.

**Unit Schedule**

The iLearn website contains a complete schedule of readings, learning materials, asynchronous work and tutorial requirements.
