Unit description
This unit is the third practical placement unit for the Master of Clinical Psychology program
and is conducted in an external clinical service under the supervision of Adjunct Fellows of
Macquarie University. The placement has an overall workload of 300 hours, and provides the
opportunity to further develop students' intermediate competencies in Clinical psychology as
demonstrated in Practical Placement 2 in another setting with increasing independence.
Activities include face-to-face assessment and treatment of genuine clients of the service;
professional administrative tasks such as risk management, note keeping and report writing;
and supervision activities, both individual and group as required and available in the service. A
range of general clinical work with adults and children is mandatory and may include anxiety,
depression, trauma, personality disorders and medical problems, as well as practice working
in different therapeutic approaches. Students are required to complete at least a thousand
hours across all placements in the program to meet accreditation requirements. By the time
students finish Practical Placement 3, they will have further developed competencies in 10
domains identified by the accrediting body APAC as Core Competencies to become a Clinical
Psychologist.

Mid-placement review (MPR)

Assessment Type: Work-integrated task
Indicative Time on Task: 1 hours
Due: Mid-point of placement
Weighting: 30%
This is a hurdle assessment task (see assessment policy for more information on hurdle assessment tasks)

This is a mid-placement assessment of competency, conducted in the placement setting with the field supervisor using a standardised, validated competency assessment (CYPRS) tool. Feedback is on developing competency to a Pass level on each of eleven domains, with Pass
specified as a score of 3.5 out of 5 on each domain.

On successful completion you will be able to:

- Apply depth and breadth of well-developed knowledge and scholarly understanding required of clinical psychologists in determining client needs and designing and implementing evidence-based interventions
- Demonstrate higher level critical thinking skills in their ability both to generate and evaluate new, professionally-oriented knowledge
- Communicate effectively across a wide range of client groups, colleagues and other professionals, using a variety of formats to function empathically within and across cultures and life stages
- Apply knowledge of the legislative frameworks relevant to clinical psychologists and undertake practice according to professional standards and the Psychology Board of Australia’s code of ethics
- Demonstrate the entry level capabilities required of practising clinical psychologists, along with the professional and personal skills for assessing continuous development needs

**Weekly Supervision (WIL)**

Assessment Type 1: Work-integrated task  
Indicative Time on Task 2: 50 hours  
Due: Throughout the placement  
Weighting: 30%

*This is a hurdle assessment task (see assessment policy for more information on hurdle assessment tasks)*

Students participate in case management and intervention under close supervision of field supervisors appointed as Macquarie University Adjunct Fellows. Students will be assessed on several skills including formative assessment and treatment skills; professional conduct; self-reflection via log book; ethics and communication skills including professional report writing. At the end of placement a declaration form confirming hours is also required.

On successful completion you will be able to:

- Apply depth and breadth of well-developed knowledge and scholarly understanding required of clinical psychologists in determining client needs and designing and implementing evidence-based interventions
- Demonstrate higher level critical thinking skills in their ability both to generate and evaluate new, professionally-oriented knowledge
- Communicate effectively across a wide range of client groups, colleagues and other
professionals, using a variety of formats to function empathically within and across cultures and life stages

- Apply knowledge of the legislative frameworks relevant to clinical psychologists and undertake practice according to professional standards and the Psychology Board of Australia’s code of ethics
- Demonstrate the entry level capabilities required of practising clinical psychologists, along with the professional and personal skills for assessing continuous development needs

Samples of case reports
Assessment Type 1: Report
Indicative Time on Task 2: 2 hours
Due: End of placement
Weighting: 10%
This is a hurdle assessment task (see assessment policy for more information on hurdle assessment tasks)

This hurdle assessment requires students to submit three samples of a case report, formulation and complete case notes of each client, together with the end of placement review.

On successful completion you will be able to:
- Apply depth and breadth of well-developed knowledge and scholarly understanding required of clinical psychologists in determining client needs and designing and implementing evidence-based interventions
- Demonstrate higher level critical thinking skills in their ability both to generate and evaluate new, professionally-oriented knowledge
- Communicate effectively across a wide range of client groups, colleagues and other professionals, using a variety of formats to function empathically within and across cultures and life stages
- Apply knowledge of the legislative frameworks relevant to clinical psychologists and undertake practice according to professional standards and the Psychology Board of Australia’s code of ethics
- Demonstrate the entry level capabilities required of practising clinical psychologists, along with the professional and personal skills for assessing continuous development needs

End of placement review (EPR)
Assessment Type 1: Work-integrated task
Indicative Time on Task 2: 2 hours
Due: **End of placement**  
Weighting: **30%**  
This is a hurdle assessment task (see assessment policy for more information on hurdle assessment tasks)

This is an end of placement assessment of competency, conducted in the placement setting with the field supervisor using a standardised, validated competency assessment (CYPRS) tool. Feedback is on developing competency to a Pass level on each of eleven domains, with Pass specified as a score of 4 out of 5 on each domain. The field supervisor provides recommendation to the placement coordinator who reviews the evaluation form including log book and samples of work, to determine the awarding the final grade.

On successful completion you will be able to:

- Apply depth and breadth of well-developed knowledge and scholarly understanding required of clinical psychologists in determining client needs and designing and implementing evidence-based interventions
- Demonstrate higher level critical thinking skills in their ability both to generate and evaluate new, professionally-oriented knowledge
- Communicate effectively across a wide range of client groups, colleagues and other professionals, using a variety of formats to function empathically within and across cultures and life stages
