Session 2 Learning and Teaching Update

The decision has been made to conduct study online for the remainder of Session 2 for all units WITHOUT mandatory on-campus learning activities. Exams for Session 2 will also be online where possible to do so.

This is due to the extension of the lockdown orders and to provide certainty around arrangements for the remainder of Session 2. We hope to return to campus beyond Session 2 as soon as it is safe and appropriate to do so.

Some classes/teaching activities cannot be moved online and must be taught on campus. You should already know if you are in one of these classes/teaching activities and your unit convenor will provide you with more information via iLearn. If you want to confirm, see the list of [units with mandatory on-campus classes/teaching activities](#).

Visit the [MQ COVID-19 information page](#) for more detail.

Unit description

Mapping is a critical method applied by geographers. While often presented as unbiased, critical geographers have demonstrated the means by which mapping can be employed as a tool of power. In response, methods of counter-mapping and other experimental practices provide alternative understandings of space, expose power and progress socio-spatial justice while new technologies allow participation by 'nonexperts'. In both a historical and contemporary context, this unit asks how can we define and understand Sydney through a critical geographical lens, and whether the archetypal 'Australian dream' still exists? The unit will focus upon methods of counter-mapping Sydney and other cities, and explores what a critical geographical mapping to develop a 'People's Guide to Sydney' might comprise.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Demonstrate an understanding of the contested representations of the 'Australian dream' and its relevance to Sydney.

ULO2: Critically examine the history of mapping, and its use by geographers to explore and visualise contemporary urban problems.

ULO3: Identify and discuss the diverse political motivations, methods and implications of mapping and counter-mapping.

ULO4: Analyse the potential of counter-mapping to reveal different lenses through which

to understand and define cities.

General Assessment Information

Late Assessment Penalty

Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – 10 marks out of 100 credit will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted seven days (incl. weekends) after the original submission deadline.
